

Subject card

Subject name and code	Fundamentals of Machine Design III, PG_00040190						
Field of study	Mechanical Engineering						
Date of commencement of studies	October 2022	Academic year of realisation of subject			2024/2025		
Education level	first-cycle studies	Subject group			Obligatory subject group in the field of study Subject group related to scientific research in the field of study		
Mode of study	Full-time studies	Mode of delivery			at the university		
Year of study	3	Language of instruction			English		
Semester of study	5	ECTS credits			3.0		
Learning profile	general academic profile	Assessment form			assessment		
Conducting unit	Department of Machine Design and Vehicles -> Faculty of Mechanical Engineering and Ship Technology						
Name and surname of lecturer (lecturers)	Subject supervisor						
	Teachers						
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	0.0	30.0	0.0	30
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours	Self-study	SUM		
	Number of study hours	30	6.0	39.0	75		
Subject objectives	<p>Learning the methodology of designing simple mechanical devices</p> <p>Extending the knowledge and skills to use basic calculation methods for typical machine elements and the methods of selecting catalog parts for the designed technical device</p> <p>Learning how to effectively create technical documentation using theoretical knowledge and CAD software</p>						
Learning outcomes	Course outcome	Subject outcome			Method of verification		
	K6_U11						
	K6_W08						
	[K6_U03] is able to identify, formulate and develop the documentation of a simple design or technological task, including the description of the results of this task in Polish or in a foreign language and to present the results using computer software or other aiding tools	Is able to identify, formulate and develop the documentation of a simple design or technological task, including the description of the results of this task in Polish or in a foreign language and to present the results using computer software or other aiding tools			[SU5] Assessment of ability to present the results of task [SU1] Assessment of task fulfilment		
	K6_W04						
	K6_U07						

Subject contents	<p>Main aim is to design a simple machine that performs one simple operation. The designed machine may include such elements as: screw connections, welded connections, shafts and axles, couplings, gears, brakes, bearings, flexible elements.</p> <p>The project will require basic engineering calculations for typical machine elements</p> <p>As part of the project, it will also be necessary to prepare drawing documentation, i.e. assembly drawing and 3-5 working drawings</p> <p>Everything is to be documented in a single report</p>											
Prerequisites and co-requisites	The content of lectures, computational and computer exercises as well as a structural design in Fundamentals of Machine Design I and Fundamentals of Machine Design II subjects											
Assessment methods and criteria	<table border="1" data-bbox="448 528 1489 656"> <thead> <tr> <th data-bbox="448 528 794 562">Subject passing criteria</th> <th data-bbox="794 528 1141 562">Passing threshold</th> <th data-bbox="1141 528 1489 562">Percentage of the final grade</th> </tr> </thead> <tbody> <tr> <td data-bbox="448 562 794 618">Weekly assessment of current work progress</td> <td data-bbox="794 562 1141 618">50.0%</td> <td data-bbox="1141 562 1489 618">60.0%</td> </tr> <tr> <td data-bbox="448 618 794 656">Final report submitted</td> <td data-bbox="794 618 1141 656">50.0%</td> <td data-bbox="1141 618 1489 656">40.0%</td> </tr> </tbody> </table>			Subject passing criteria	Passing threshold	Percentage of the final grade	Weekly assessment of current work progress	50.0%	60.0%	Final report submitted	50.0%	40.0%
Subject passing criteria	Passing threshold	Percentage of the final grade										
Weekly assessment of current work progress	50.0%	60.0%										
Final report submitted	50.0%	40.0%										
Recommended reading	Basic literature	<p>A set of scripts from the Fundamentals of Machine Design published by the Gdańsk University of Technology</p> <p>The content of lectures, computational and computer exercises as well as a structural design in Fundamentals of Machine Design I and Fundamentals of Machine Design II subjects</p>										
	Supplementary literature	<p>- A set of books "Fundamentals of Machine Design" published by PWN, Warsaw-PKM, edited by M. Dietrich, PWN, Warsaw</p> <p>- Any works on Fundamentals of Machine Design in Polish and in English</p>										
	eResources addresses											
Example issues/ example questions/ tasks being completed	<ul style="list-style-type: none"> - Development of various device concepts - Choosing the best concept - Design and verification calculations - Preparation of drawing documentation - assembly drawing and executive drawings 											
Work placement	Not applicable
