

## Subject card

Subject name and code	ENTERPRISE INFORMATION SYSTEMS, PG_00058511						
Field of study	Economic Analytics						
Date of commencement of studies	October 2022	Academic year of realisation of subject			2023/2024		
Education level	first-cycle studies	Subject group			Obligatory subject group in the field of study Subject group related to scientific research in the field of study		
Mode of study	Full-time studies	Mode of delivery			at the university		
Year of study	2	Language of instruction			English The course is taught in two languages, English and Polish.		
Semester of study	4	ECTS credits			5.0		
Learning profile	general academic profile	Assessment form			exam		
Conducting unit	Department of Informatics in Management -> Faculty of Management and Economics						
Name and surname of lecturer (lecturers)	Subject supervisor		dr Tomasz Janowski				
	Teachers		dr Tomasz Janowski				
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	30.0	0.0	30.0	0.0	0.0	60
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	60		10.0		55.0	125
Subject objectives	Explains how digitization transforms modern enterprises, pointing to the links between information systems and business processes						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
	[K6_U07] uses information technologies to improve data analysis and decision-making processes		applies information systems to support decision-making processes and build the company's value		[SU3] Assessment of ability to use knowledge gained from the subject [SU4] Assessment of ability to use methods and tools		
	[K6_W02] demonstrates comprehensive preparation in the field of methods, techniques for formulating and solving problems		chooses information methods and techniques to solve problems in a company		[SW1] Assessment of factual knowledge [SW2] Assessment of knowledge contained in presentation		
Subject contents	<p>Lectures:</p> <p>Introduction - digital enterprise            Typology - types of enterprise information systems            Organization - impact of organization on information systems            Society - digital enterprise in the society            Economy - digital enterprise in the economy</p> <p>Labs:</p> <p>Fundamentals of the SAP system,            Global Bike company in SAP            Sales and distribution process in SAP            Materials management process in SAP            Production planning and implementation process in SAP            Accounting and financial process in SAP            Control process in SAP            Human resources management process in SAP            Colloquium</p>						
Prerequisites and co-requisites	Fundamentals of computer science, management, marketing, production management and microeconomics						

Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	Project	0.0%	20.0%
	Activity	0.0%	10.0%
	Exam	60.0%	45.0%
	Colloquium	60.0%	25.0%
