

Subject card

Subject name and code	Computer Science in Management, PG_00044151						
Field of study	Engineering Management						
Date of commencement of studies	October 2022	Academic year of realisation of subject			2022/2023		
Education level	first-cycle studies	Subject group			Obligatory subject group in the field of study Subject group related to scientific research in the field of study		
Mode of study	Part-time studies	Mode of delivery			at the university		
Year of study	1	Language of instruction			Polish		
Semester of study	1	ECTS credits			3.0		
Learning profile	general academic profile	Assessment form			assessment		
Conducting unit	Department of Informatics in Management -> Faculty of Management and Economics						
Name and surname of lecturer (lecturers)	Subject supervisor	mgr inż. Kamil Brodnicki					
	Teachers	mgr inż. Kamil Brodnicki					
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	16.0	0.0	0.0	16
	E-learning hours included: 0.0						
Informatyka w zarządzaniu (NST, 2022-2023) - Moodle ID: 26421 https://enauczanie.pg.edu.pl/moodle/course/view.php?id=26421							
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours	Self-study	SUM		
	Number of study hours	16	6.0	53.0	75		
Subject objectives	Using office applications for business data processing						
Learning outcomes	Course outcome	Subject outcome	Method of verification				
	[K6_W05] knows the statistical and IT methods and tools that enable the acquisition and presentation of data on the organisation's resources, including technical resources	Student knows IT tools used for business problem solution	[SW2] Assessment of knowledge contained in presentation				
	[K6_U09] obtains data for analysis and interpretation of results using information technology	Student can use IT tools for data processing and analysing	[SU2] Assessment of ability to analyse information				
Subject contents	A set of exercises using the potential of a spreadsheet in data processing and extracting information. EXCEL 1. Improving business tasks using IT applications. 2. Importing external data, operations of data sorting and filtering, conditional formatting, pivot tables, subtotals. 3. Functions (mainly mathematical, text, statistics, search and address). Nesting functions. 4. Advanced data analysis using functions. 5. Makros. 6. Building applications in Excel with the use of formants.						
Prerequisites and co-requisites	Basic knowledge of operating systems (like Windows) and office application (i.e. MS Excel)						
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade				
	Midterm colloquium	60.0%	100.0%
