

## Subject card

Subject name and code	ENTERPRISE INFORMATION SYSTEMS, PG_00040528						
Field of study	Engineering Management						
Date of commencement of studies	October 2022	Academic year of realisation of subject			2023/2024		
Education level	first-cycle studies	Subject group			Obligatory subject group in the field of study Subject group related to scientific research in the field of study		
Mode of study	Part-time studies	Mode of delivery			at the university		
Year of study	2	Language of instruction			English The course is taught in two languages, English and Polish.		
Semester of study	4	ECTS credits			5.0		
Learning profile	general academic profile	Assessment form			exam		
Conducting unit	Department of Informatics in Management -> Faculty of Management and Economics						
Name and surname of lecturer (lecturers)	Subject supervisor	dr Tomasz Janowski					
	Teachers	dr Tomasz Janowski dr inż. Bartosz Woliński					
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	16.0	0.0	16.0	0.0	0.0	32
E-learning hours included: 0.0							
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours		Self-study		SUM
	Number of study hours	32	8.0		85.0		125
Subject objectives	The aim of the course is introduction to the modern practice of the use of information systems by enterprises for achieving operational excellence, developing new products and services, improving decision-making, and gaining competitive advantage. Another goal is to answer the question how the use of information systems and technologies transforms a traditional enterprise into a modern digital enterprise, and what is the impact of such transformation on the socioeconomic environment.						
Learning outcomes	Course outcome	Subject outcome			Method of verification		
	[K6_U12] can design the process of exploitation of production and IT infrastructure with the use of appropriate methods, techniques and tools	can determine what technologies and information systems are needed and point at innovative applications of information systems in an enterprise to achieve its goals including increasing productivity			[SU4] Assessment of ability to use methods and tools [SU1] Assessment of task fulfilment [SU3] Assessment of ability to use knowledge gained from the subject		
	[K6_W12] has a basic knowledge of production management and occupational safety and ergonomics management, as well as information technologies necessary for engineering management	can recognize the management, organizational, and technical aspects of the adoption of information systems and plan the activities needed to build and manage information systems in the enterprise			[SW1] Assessment of factual knowledge		
	[K6_U09] obtains data for analysis and interpretation of results using information technology	can classify and describe information technology environments used to build information systems, and knows the concepts and practices of IT project management			[SU2] Assessment of ability to analyse information [SU3] Assessment of ability to use knowledge gained from the subject		

Subject contents	<p>LECTURES</p> <ul style="list-style-type: none"> <li>• Introduction - digital enterprise</li> <li>• Typology - types of enterprise information systems</li> <li>• Organization - impact of organization on information systems</li> </ul> <p>LABORATORY</p> <ul style="list-style-type: none"> <li>• Fundamentals of the SAP system,</li> <li>• Global Bike company in SAP</li> <li>• Sales and distribution process in SAP</li> <li>• Materials management process in SAP</li> <li>• Production planning and implementation process in SAP</li> <li>• Accounting and financial process in SAP</li> <li>• Colloquium</li> </ul>																	
Prerequisites and co-requisites	<ul style="list-style-type: none"> <li>• Foundations of information technology</li> <li>• Information technology in management</li> </ul>																	
Assessment methods and criteria	<table border="1"> <thead> <tr> <th data-bbox="456 759 794 790">Subject passing criteria</th> <th data-bbox="798 759 1136 790">Passing threshold</th> <th data-bbox="1139 759 1479 790">Percentage of the final grade</th> </tr> </thead> <tbody> <tr> <td data-bbox="456 795 794 826">Exam</td> <td data-bbox="798 795 1136 826">60.0%</td> <td data-bbox="1139 795 1479 826">45.0%</td> </tr> <tr> <td data-bbox="456 831 794 862">Colloquium</td> <td data-bbox="798 831 1136 862">60.0%</td> <td data-bbox="1139 831 1479 862">25.0%</td> </tr> <tr> <td data-bbox="456 866 794 898">Activity</td> <td data-bbox="798 866 1136 898">0.0%</td> <td data-bbox="1139 866 1479 898">10.0%</td> </tr> <tr> <td data-bbox="456 902 794 934">Project</td> <td data-bbox="798 902 1136 934">0.0%</td> <td data-bbox="1139 902 1479 934">20.0%</td> </tr> </tbody> </table>			Subject passing criteria	Passing threshold	Percentage of the final grade	Exam	60.0%	45.0%	Colloquium	60.0%	25.0%	Activity	0.0%	10.0%	Project	0.0%	20.0%
