GDAŃSK UNIVERSITY OF TECHNOLOGY

Subject card

Subject name and code	Production Management, PG_00040525		
Field of study	Engineering Management		
Date of commencement of studies	October 2022	Academic year of realisation of subject	2023/2024
Education level	first-cycle studies	Subject group	Obligatory subject group in the field of study Subject group related to scientific research in the field of study
Mode of study	Part-time studies (on-line)	Mode of delivery	blended-learning
Year of study	2	Language of instruction	Polish
Semester of study	3	ECTS credits	4.0
Learning profile	general academic profile	Assessment form	exam
Conducting unit	Department of Quality Management and Commodity Science -> Faculty of Management and Economics		
Name and surname of lecturer (lecturers)	Subject supervisor	Magdalena Laskowska	
	Teachers	Jan Szefler Magdalena Laskowska	

Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	16.0	0.0	0.0	8.0	0.0	24
	E-learning hours included: 18.0						

Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours	Self-study	SUM
	Number of study hours	24	7.0	69.0	100

Subject objectives	The goal of the course is obtain by the students knowledge about contemporary operation systems of production and services. It gives the students skills in creation operation strategy and design operation systems.

Learning outcomes

Course outcome	Subject outcome	Method of verification
[K6_W02] has a basic knowledge of the different types of departments in the organisation, with particular emphasis on structures of an engineering nature	Student defines and explains contemporary operation systems of production and services. Creates operation strategy. Apples fundamental methods and tools of design operation systems..	[SW1] Assessment of factual knowledge
[K6_U11] can plan and control production and production quality, including the identification and formulation of specifications for simple engineering tasks		[SU1] Assessment of task fulfilment
[K6_W12] has a basic knowledge of production management and occupational safety and ergonomics management, as well as information technologies necessary for engineering management	Knows the Goals and Measures of Operations. Productivity. Operation Processes. Process Layout Planning. Process Reegineering and Improvement. Process Management.	[SW1] Assessment of factual knowledge
[K6_K02] identifies problems related to undertaking various tasks, including engineering in the changing conditions of the organisation's functioning; takes into account the ethical aspect related to the implementation of the organisation's tasks		[SK1] Assessment of group work skills
[K6_W08] has a basic knowledge of the changes taking place in the organisation and its environment, taking into account environmental problems		[SW1] Assessment of factual knowledge

Subject contents

LECTURES:

1. Introduction. Historical view.
2. Ability and production program.
3. Forms of production organization.
4. BOM and MRP.
5. System and production process. ABC analysis.
6. Supplies management. Production control and planning.
7. Industry 4.0.
8. Ecological aspects and industry 4.0
9. MRPII and ERP systems

Prerequisites and co-requisites

Assessment methods and criteria

Subject passing criteria	Passing threshold	Percentage of the final grade
Project and colloquium	60.0%	50.0%
Written exam	60.0%	50.0%
