

Subject card

Subject name and code	Engineering Project, PG_00050181						
Field of study	Engineering Management						
Date of commencement of studies	October 2022		Academic year of realisation of subject		2025/2026		
Education level	first-cycle studies		Subject group		Optional subject group Subject group related to scientific research in the field of study		
Mode of study	Part-time studies (on-line)		Mode of delivery		at the university		
Year of study	4		Language of instruction		Polish		
Semester of study	8		ECTS credits		14.0		
Learning profile	general academic profile		Assessment form		assessment		
Conducting unit	Department Of Management -> Faculty Of Management And Economics -> Wydziały Politechniki Gdańskiej						
Name and surname of lecturer (lecturers)	Subject supervisor						
	Teachers						
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	0.0	0.0	0.0	0
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	0		24.0		326.0	350
Subject objectives	The aim of the course is to develop the topic and scope of an engineering project.						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
	[K6_W81] has knowledge of grammatical structures and lexical resources needed to communicate in foreign language in terms of general and specialist language related to field of study		The student speaks a foreign language to the degree that enables preparing an engineering project presentation in a culturally diverse group.		[SW2] Assessment of knowledge contained in presentation		
	[K6_U13] can improve oneself through the systematic acquisition of knowledge and skills		The student can independently find and acquire knowledge and skills necessary to implement an engineering project.		[SU2] Assessment of ability to analyse information [SU3] Assessment of ability to use knowledge gained from the subject		
	[K6_U10] uses tools to measure and improve technical solutions concerning: devices, objects, systems, processes, products and services		The student can indicate the tools necessary for the implementation of an engineering project.		[SU4] Assessment of ability to use methods and tools		
Subject contents	Formal aspects of preparing a thesis.						
	Formulation of the aim of the engineering project.						
	Search and analysis of the literature on the subject.						
	Collecting data from various sources: surveys, observations, statistical data, documentation.						
	Selection of the method of solving the problem.						

Prerequisites and co-requisites			
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	the project' topic and agreed with the superviso and his othet requirements met	51.0%	100.0%
Recommended reading	Basic literature	Literature agreed with the work supervisor.	
	Supplementary literature	.	
	eResources addresses	Adresy na platformie eNauczanie:	
Example issues/ example questions/ tasks being completed	Present the genesis of the work.		
	Present the purpose and scope of the engineering project.		
Work placement	Not applicable		

Document generated electronically. Does not require a seal or signature.
