

## Subject card

Outliest serves and and	Aspects of Safaty, Ecology and Economics in Boad Engineerin, DC, 00044340								
Subject name and code	•	Aspects of Safety, Ecology and Economics in Road Engineerin, PG_00044349							
Field of study	Civil Engineering  October 2022  Academic year of 2023/2024								
Date of commencement of studies			Academic year of realisation of subject			2023/2024			
Education level	second-cycle studies		Subject group			Optional subject group			
Mode of study	Part-time studies		Mode of delivery			at the university			
Year of study	2		Language of instruction			Polish			
Semester of study	4		ECTS credits			3.0			
Learning profile	general academic profile		Assessment form			exam			
Conducting unit	Department of Transportation Engineering -> Faculty of Civil and Environmental Engineering								
Name and surname	Subject supervisor		dr inż. Marcin Budzyński						
of lecturer (lecturers)	Teachers		dr inż. Marcin Budzyński						
			dr hab. inż. Kazimierz Jamroz						
			dr inż. arch. Romanika Okraszewska						
			dr inż. Wojciech Kustra						
Lesson types and methods	Lesson type	Lecture	Tutorial	Laboratory	Projec	t	Seminar	SUM	
of instruction	Number of study hours	15.0	10.0	0.0	0.0		0.0	25	
	E-learning hours included: 0.0								
Learning activity and number of study hours	Learning activity Participation ir classes include plan				Self-study SUM				
	Number of study hours	25		7.0		43.0		75	
Subject objectives	The aim of the course is to learn about the methods of optimizing a road investment and to make elements of a feasibility study for such an investment.								
Learning outcomes	Course outcome		Subject outcome			Method of verification			
	[K7_W05] has knowledge about business activity specific for construction sector; understands principles of financial economy of companies, knows rules of defining quality management procedures in a construction company; has knowledge about optimisation of building enterprises and existing risk and uncertainty		The student can perform elements of the feasibility study.						
	the rules of traffic organisation and		The student is able to use tools in the field of assessing the economic efficiency of road investment, road safety level and the impact of road traffic on the environment.						
	[K7_W06] has expanded knowledge about traffic theory, planing of road networks and junctions design, regarding economy, safety and environmental aspects  [K7_W13] has knowledge on state		The student has the ability to assess road investment in terms of impact on safety, the environment and is able to assess the effectiveness of the investment. Is able to use multi-criteria analysis tools to choose the optimal investment option.  The student is able to obtain data						
	of the art methods on knowledge acquisition, filtration, processing and analysis		for traffic forecasts, has the ability to apply the method of cost-benefit analysis for road investment.						

Data wydruku: 18.07.2024 08:53 Strona 1 z 2

Subject contents	Economic analysis methods for road investment. Multi-criteria analysis method. Scope and content of the feasibility study. Environmental impact assessment of road investments. Risk in traffic. Identification and risk assessment of road users.					
Prerequisites and co-requisites	Basic knowledge of road engineering obtained in first level of studies.					
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade			
	Workshops	60.0%	50.0%			
	Lecture	60.0%	50.0%			
Recommended reading	Basic literature	JASPERS. Blue Book of Road Infrastructure, 2015				
	Supplementary literature	Tracz M., Bohatkiewicz J., Radosz. S., Stręk. J. Road environmental impact assessment. Part I and II - second edition extended and updated. General Directorate of Public Roads. Warsaw, 1999				
	eResources addresses	Adresy na platformie eNauczanie:				
Example issues/ example questions/ tasks being completed	Optimization methods for road investments. Rules for assessing investment options. Road traffic forecasts and economics for economic analyzes.					
Work placement	Not applicable	Not applicable
