	Number of study hours	15.0	15.0	0.0	0.0	0.0	30
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	30		4.0		16.0	50
Subject objectives	TQM is a holistic approach to all questions a manager has to deal with. Regardless if customer satisfaction and loyalty or a complaint management system is concerned or the focus is on Kaizen or Six Sigma the ability to understand and apply those techniques is essential for any successful manager, regardless if you work as an engineer or as a marketing assistant.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[K7_U02] analyses complex economic processes and phenomena using selected methods and techniques for analysing socio-economic data, and formulates their own opinions and conclusions concerning these processes and phenomena	After analyzing the situation in the organization, student is planning activities in the field of Total Quality Management.	[SU3] Assessment of ability to use knowledge gained from the subject
	[K7_U06] has a good command of the relevant standards, methods and techniques used in the discipline of management science to solve problems related to the organization's activities	Students learn to think about TQM in a holistic way. They are able to analyse a given situation, looking for alternatives and presenting a final solution to matters that are part of TQM (Benchmarking, Kaizen or Customer Satisfaction, ISO 14001 etc).	[SU1] Assessment of task fulfilment
	[K7_W11] has an in-depth knowledge of the creation, operation and design of management structures and systems and their improvement in the process of achieving objectives	The student is aware of the uncertainty of the organization environment and the need to update his knowledge in the field of quality management.	[SW2] Assessment of knowledge contained in presentation
	[K7_W02] has an in-depth knowledge of classical and modern management concepts and their application in the management of modern organizations of various types	Has knowledge about the impact of quality activities on the financial situation of the organization.	[SW2] Assessment of knowledge contained in presentation
	[K7_W13] knows the legal aspects and principles of industrial property and copyright protection, as well as the necessity of managing intellectual property resources	The student has knowledge of the possible applications of the TQM methodology in any organization, including SMEs.	[SW3] Assessment of knowledge contained in written work and projects
