

Subject card

Subject name and code	QoS Packet Networks Design, PG_00048358								
Field of study	Electronics and Telecommunications								
Date of commencement of	February 2023		Academic year of			2023/2024			
studies Education level	second-cycle studies		realisation of subject						
Education level	second-cycle studies		Subject group			Optional subject group Subject group related to scientific research in the field of study			
Mode of study	Full-time studies		Mode of delivery			at the university			
Year of study	1		Language of instruction			Polish			
Semester of study	2		ECTS credits			1.0			
Learning profile	general academic profile		Assessment form			assessment			
Conducting unit	Department of Telein	Department of Teleinformation Networks -> Faculty of Electronics, Telecommunications and Inform					nformatics		
Name and surname	Subject supervisor		dr hab. inż. Sylwester Kaczmarek						
of lecturer (lecturers)	Teachers		dr hab. inż. Sylwester Kaczmarek						
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial Laboratory Project		et	Seminar	SUM		
	Number of study hours	0.0	0.0	0.0	15.0		0.0	15	
	E-learning hours inclu	E-learning hours included: 0.0							
Learning activity and number of study hours	Learning activity	Participation in classes include plan				Self-study		SUM	
	Number of study hours	15		2.0		8.0		25	
Subject objectives	Transfer of knowledge necessary to design packet networks with traffic quality classes taking into account optical transport technologies.								
Learning outcomes	Course outcome		Subject outcome			Method of verification			
	[K7_U03] can design, according to required specifications, and make a complex device, facility, system or carry out a process, specific to the field of study, using suitable methods, techniques, tools and materials, following engineering standards and norms, applying technologies specific to the field of study and experience gained in the professional engineering environment		The student is realizing the team project out for three plains of the technology starting from the package IP network and having finished on the DWDM technology.			[SU1] Assessment of task fulfilment			
	assess these solutions, as well as apply experience related to the maintenance of advanced technical systems, devices and facilities typical for the field of studies, gained in the professional		The student is designing resources quantitatively on the level of the network and the node including applied technologies on different plains. The design is taking into account the existing of classes of the quality of services and the cooperation of techniques with the switching of packages and channels.			[SU1] Assessment of task fulfilment			
Subject contents Prerequisites	Discussion of the principles of project implementation. Characterization of project tasks. Designing gateways between a classical network and an IP QoS network. Calculation of streams for given classes of traffic sources. Assignment of traffic source classes to IP QoS network service classes. Selection of the routing algorithm and traffic placement in the IP QoS network. Calculation of the required bandwidth of links in the IP QoS network. Designing the SDH/DWDM network layer (variant A) and OTN/DWDM (variant B) that also support IP QoS network traffic. Designing OTN/DWDM networks with link failure. Calculation of quantitative quality parameters for the selected relationship. Designing traffic source control mechanisms. Acceptance and evaluation of completed projects. No requirements								
and co-requisites

Assessment methods	Subject passing criteria	Passing threshold	Percentage of the final grade		
and criteria	Project	50.0%	100.0%		
Recommended reading	Basic literature	Materials prepared by the lecturer available in electronic form in PDF files and in the form of a photocopy (on request).			
	Supplementary literature	No requirements.			
	eResources addresses	Adresy na platformie eNauczanie:			
		Projektowanie sieci pakietowych z QoS - projekt - 2023 - Moodle ID: 31572 https://enauczanie.pg.edu.pl/moodle/course/view.php?id=31572			
Example issues/ example questions/ tasks being completed					
Work placement	Not applicable
