

Subject card

Subject name and code	Industrial User Interfaces, PG_00048476						
Field of study	Automatic Control, Cybernetics and Robotics						
Date of commencement of studies	February 2023	Academic year of realisation of subject			2023/2024		
Education level	second-cycle studies	Subject group			Optional subject group Subject group related to scientific research in the field of study		
Mode of study	Full-time studies	Mode of delivery			at the university		
Year of study	1	Language of instruction			Polish		
Semester of study	2	ECTS credits			1.0		
Learning profile	general academic profile	Assessment form			assessment		
Conducting unit	Department of Decision Systems and Robotics -> Faculty of Electronics, Telecommunications and Informatics						
Name and surname of lecturer (lecturers)	Subject supervisor		mgr inż. Marek Grzegorek				
	Teachers		mgr inż. Marek Grzegorek				
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	15.0	0.0	0.0	0.0	0.0	15
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours		Self-study	SUM	
	Number of study hours	15	2.0		8.0	25	
Subject objectives	<p>Familiarize students with selected I / O devices</p> <p>Paying attention to the diversity of interfaces</p> <p>Presentation of a general interface design scheme</p> <p>Indicate the directions of further development of interfaces</p>						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
	[K7_U01] can apply mathematical knowledge to formulate and solve complex and non-typical problems related to the field of study by:n-appropriate selection of source information and its critical analysis, synthesis, creative interpretation and presentation,n-application of appropriate methods and toolsn		The student knows the methods of interface design, plans the appropriate user interface by analyzing requirements, the working environment and the purpose of the device		[SU2] Assessment of ability to analyse information [SU1] Assessment of task fulfilment		
	K7_U04		Student is familiar with popular libraries used for implementation of user interfaces and communication with interaction devices.		[SU2] Assessment of ability to analyse information [SU1] Assessment of task fulfilment		
	[K7_W21] Knows and understands, to an advanced extent, methods and techniques of design and operation of automatic control systems, control and robotics systems, as well as the use of computers in the control and monitoring of dynamic objects		Student is familiar with theoretical principles of speech, natural language, vision and inertial signal processing models for gesture based user interfaces. Student knows basic of the design process of graphics user interfaces.		[SW1] Assessment of factual knowledge		
	[K7_W01] Knows and understands, to an increased extent, mathematics to the extent necessary to formulate and solve complex issues related to the field of study.		Student is familiar with common use cases of interaction devices and has basic knowledge about acoustic and vision signals and natural language.		[SW1] Assessment of factual knowledge		

Subject contents	Introduction: principles of assessment, which is an interface, history Devices interaction 1 Devices interaction 2 Styles of human-computer interaction, text interface The graphical interface, the categories of controls Presentation of controls, functions Menus, windows, icons and tiles direct manipulation forms Acoustic signals and natural language multimedia Systems Virtual reality Augmented reality Interface Design 1 Interface Design 2		
Prerequisites and co-requisites			
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	exam	50.0%	100.0%
Recommended reading	Basic literature	"Podstawy interfejsów użytkownika", Witold Malina, Mariusz Szwoch, PWNT Gdańsk 2015 https://en.wikipedia.org/wiki/User_interface https://pl.wikipedia.org/wiki/Interfejs_%28urz%C4%85dzenie%29	
	Supplementary literature	https://en.wikipedia.org/wiki/User_interface_design	
	eResources addresses	Adresy na platformie eNauczanie:	
Example issues/ example questions/ tasks being completed	What is user interface? What style of interaction are used? What are elements of interface? What are the general rules for the design of user interface?		
Work placement	Not applicable
