

GDAŃSK UNIVERSITY

Subject card

Subject name and code	Script Languages and their Applications, PG_00048243								
Field of study	Informatics								
Date of commencement of studies	February 2023		Academic year of realisation of subject			2022/2023			
Education level	second-cycle studies		Subject group		Optional subject group				
						Subject group related to scientific research in the field of study			
Mode of study	Full-time studies		Mode of delivery			at the university			
Year of study	1		Language of instruction			Polish			
Semester of study	1		ECTS credits			2.0			
Learning profile	general academic profile		Assessment form		assessment				
Conducting unit	Department of Algorithms and Systems Modelling -> Faculty of Electronics, Telecommunications and Informatics								
Name and surname of lecturer (lecturers)	Subject supervisor		dr hab. inż. Robert Janczewski						
	Teachers	dr hab. inż. Robert Janczewski							
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	t	Seminar	SUM	
	Number of study hours	15.0	0.0	0.0	15.0		0.0	30	
	E-learning hours included: 0.0								
Learning activity and number of study hours	Learning activity	Participation in classes includ plan	n didactic led in study	Participation in consultation hours		Self-study		SUM	
	Number of study hours	30		4.0		16.0		50	
Subject objectives	Students learned two script languages: Python and Cython. They know the syntax of the languages and basic libraries of Cython and Python. They wrote several small and one medium-size program in Python.								

Learning outcomes	Course outcome	Subject outcome	Method of verification			
	[K7_W04] Knows and understands, to an advanced extent, the principles, methods and techniques of programming and the principles of computer software development or programming devices or controllers using microprocessors or programmable elements or systems specific to the field of study, and organisation of systems using computers or such devices	Student learns how to design programs written in Python.	[SW1] Assessment of factual knowledge			
	[K7_W41] Knows and understands, to an increased extent, the standards, production methods, life cycle and development trends of software as well as information systems and applications.	Student learns the life cycle of programs written in Python	[SW1] Assessment of factual knowledge			
	[K7_U06] can analyse the operation of components, circuits and systems related to the field of study; measure their parameters; examine technical specifications; interpret obtained results and draw conclusions	Student learns how to measure performance od programs written in Python.	[SU1] Assessment of task fulfilment			
	[K7_W03] Knows and understands, to an increased extent, the construction and operating principles of components and systems related to the field of study, including theories, methods and complex relationships between them and selected specific issues - appropriate for the curriculum.	Student learns libraries written in Python.	[SW1] Assessment of factual knowledge			
	[K7_W06] Knows and understands, to an increased extent, the basic processes taking place in the life cycle of devices, facilities and technical systems.	Student learns how to design programs written in Python.	[SW1] Assessment of factual knowledge			
Subject contents	1. Introduction to Python and Cython 2. Python: controlling execution of a program 3. Python: data types 4. Python: lists, tuples and dictionaries 5. Python: text processing 6. Python: modules and objects 7. Python: standard library 8. Python: GUI 9. Python: WWW applications 10. Python: machine learning					
Prerequisites and co-requisites	No requirements					
Assessment methods	Subject passing criteria	Passing threshold	Percentage of the final grade			
and criteria	Practical exercise	50.0%	50.0%			
	colloquium	50.0%	50.0%			
Recommended reading	Basic literature	http://www.python.org/doc/, R.M. Lerner ,,Core Perl. Profesjonalny przewodnik po języku Perl.", Helion 2003				
	Supplementary literature	No requirements				
	eResources addresses	Adresy na platformie eNauczanie:				
Example issues/ example questions/ tasks being completed						
Work placement	Not applicable
