

## Subject card

Subject name and code	MSc Diploma Seminar, PG_00054373						
Field of study	Informatics						
Date of commencement of studies	February 2023	Academic year of realisation of subject			2023/2024		
Education level	second-cycle studies	Subject group			Optional subject group Subject group related to scientific research in the field of study		
Mode of study	Full-time studies	Mode of delivery			at the university		
Year of study	2	Language of instruction			Polish		
Semester of study	3	ECTS credits			3.0		
Learning profile	general academic profile	Assessment form			assessment		
Conducting unit	Department of Software Engineering -> Faculty of Electronics, Telecommunications and Informatics						
Name and surname of lecturer (lecturers)	Subject supervisor	dr Paweł Weichbroth					
	Teachers	dr Paweł Weichbroth prof. dr hab. inż. Krzysztof Goczyla					
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	0.0	0.0	30.0	30
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours		Self-study	SUM	
	Number of study hours	30	3.0		42.0	75	
Subject objectives	Monitoring of the progress in realisation of MSc projects, preparation to editing the final report and defending of the master thesis and mutual communication of master projects, their objectives and achieved results.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[K7_W07] Knows and understands, to an increased extent, the general principles of creating and developing forms of individual entrepreneurship.	Is able to assess individual IT technologies and select them adequately to the scale of the problem being solved to the planned undertaking, taking into account market, social and legal conditions.	[SW2] Assessment of knowledge contained in presentation
	[K7_U10] can individually plan and pursue their own lifelong education and influence others in this aspect, also by means of advanced information and communication technologies (ICT), and communicate on specialist issues with diverse recipients, appropriately justify points of view, hold debates, present, assess and discuss different opinions and points of view, as well as use specialist terminology related to the field of study in communication	Can effectively identify any sources to acquire any supplementary knowledge required to successfully complete his/her project, including experts from various areas of science and technology.	[SU2] Assessment of ability to analyse information
	[K7_K03] is ready to meet social obligations, inspire and organise activities for the social environment, initiate actions for the public interest, think and act in an entrepreneurial way	Student is able to select the solution from the perspective of their ethical and social impact.	[SK5] Assessment of ability to solve problems that arise in practice
	[K7_K02] is ready to provide critical evaluation of received content and to acknowledge the importance of knowledge in solving cognitive and practical problems	Student is able to select the available knowledge sources from the perspective of their appropriateness for their own project	[SK2] Assessment of progress of work
[K7_K01] is ready to create and develop models of proper behaviour in the work and life environment; undertake initiatives; critically evaluate actions of their own, teams and organisations they are part of; lead a group and take responsibility for its actions; responsibly perform professional roles taking into account changing social needs, including: n - developing the achievements of the profession, n- observing and developing rules of professional ethics and acting to comply to these rules	Can provide formal arguments to critically assess content presented by the seminar participants, including the instructor.	[SK4] Assessment of communication skills, including language correctness [SK1] Assessment of group work skills	
Subject contents	<p>Presentation of the assumptions and preliminaries of the thesis being prepared, and of specific goals to be achieved with regard to the state of the art and existing practice. Student presents an outline, planned schedule and other aspects of the thesis, including involved risk. Discussion on the presentation.</p> <p>Presentation of the obtained results and achieved goals as compared to the initial projections. Critical discussion of the presentation.</p> <p>Case studies related to the ways of documenting the results of the master project and related to the ways of selecting and documenting the knowledge sources used in the master project.</p>		
Prerequisites and co-requisites			
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	Mutual assessment of the second presentation	10.0%	10.0%
	Presentation of the thesis being prepared, participation in discussions on other presentations.	50.0%	50.0%
	Presentation of the final version of the thesis., participation in discussions on other presentations.	30.0%	30.0%
	Active participation in case studies	10.0%	10.0%
