

Subject card

Subject name and code	Diploma Seminar, PG_00057413						
Field of study	Mechanical Engineering						
Date of commencement of studies	February 2023		Academic year of realisation of subject		2023/2024		
Education level	second-cycle studies		Subject group		Optional subject group		
Mode of study	Full-time studies		Mode of delivery		at the university		
Year of study	2		Language of instruction		English		
Semester of study	3		ECTS credits		2.0		
Learning profile	general academic profile		Assessment form		assessment		
Conducting unit	Department of Energy and Industrial Apparatus -> Faculty of Mechanical Engineering and Ship Technology						
Name and surname of lecturer (lecturers)	Subject supervisor		prof. dr hab. inż. Dariusz Mikieliewicz				
	Teachers		prof. dr hab. inż. Dariusz Mikieliewicz				
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	0.0	0.0	30.0	30
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	30		6.0		14.0	50
Subject objectives	Presentation of progress in realization of diploma thesis in english.						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
	[K7_K01] is aware of the need for complementing the knowledge throughout the whole life, is able to select proper methods of teaching and learning		Takes an active part in discussions concerning technical issues and thesis work carried out by other students		[SK1] Assessment of group work skills [SK4] Assessment of communication skills, including language correctness		
	[K7_U01] is able to acquire information from specialist literary sources and other sources regarding the construction and operation of machines and related disciplines in polish and in a foreign language, is able to conduct a self-learning process, is able to synthesize the information, form conclusions and justify opinions		Preparing a presentation on a current technical topic by himself.		[SU2] Assessment of ability to analyse information [SU1] Assessment of task fulfilment		
	[K7_U04] is able to prepare and present a presentation of a solution of a construction or technological task and results of performed experiments including the analysis of the results and possible changes in Polish or in a foreign language, is able to organize and manage the work of a team, directing the tasks		Presentation of own thesis		[SU5] Assessment of ability to present the results of task		
	[K7_K04] is able to establish professional contacts and is able to lead and work in a team assuming various roles in the team; is able to show resourcefulness and innovation when realizing professional projects		Completion of dedicated dissertation credits under the guidance of a dissertation supervisor		[SK5] Assessment of ability to solve problems that arise in practice		
Subject contents	According to the title of the diploma thesis.						

Prerequisites and co-requisites	According to the title of the diploma thesis.		
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	Evaluation of presentation	60.0%	100.0%
Recommended reading	Basic literature	According to the title of the diploma thesis.	
	Supplementary literature	According to the title of the diploma thesis.	
	eResources addresses	Adresy na platformie eNauczanie: Szablon angielski 2022 Faculty of Mechanical Engineering and Ship Technology (NIE EDYTUJ, TYLKO DO IMPORTU) - Nowy - Nowy kopiuj 1 - Moodle ID: 26859 https://enauczenie.pg.edu.pl/moodle/course/view.php?id=26859	
Example issues/ example questions/ tasks being completed	According to the title of the diploma thesis.		
Work placement	Not applicable
