

Subject card

| Subject name and code | Heat and mass transport, PG_00057364 | | | | | | | |
|---|--|---------------------------|---|------------|----------------|--|---------|-----|
| Field of study | Mechanical Engineering | | | | | | | |
| Date of commencement of studies | February 2023 | | Academic year of realisation of subject | | | 2022/2023 | | |
| Education level | second-cycle studies | | Subject group | | | Obligatory subject group in the field of study Subject group related to scientific | | |
| | | | | | | research in the field of study | | |
| Mode of study | Full-time studies | | Mode of delivery | | | at the university | | |
| Year of study | 1 | | Language of instruction | | | Polish | | |
| Semester of study | 1 | | ECTS credits | | | 4.0 | | |
| Learning profile | general academic profile | | Assessment form | | | exam | | |
| Conducting unit | Institute of Energy -> Faculty of Mechanical Engineering and Ship Technology | | | | | | | |
| Name and surname | Subject supervisor | dr inż. Blanka Jakubowska | | | | | | |
| of lecturer (lecturers) | Teachers | | dr inż. Blanka Jakubowska | | | | | |
| | | | dr inż. Bartosz Dawidowicz | | | | | |
| Lesson types and methods | Lesson type | Lecture | Tutorial | Laboratory | Projec | t | Seminar | SUM |
| of instruction | Number of study hours | 30.0 | 15.0 | 0.0 | 0.0 | | 0.0 | 45 |
| | E-learning hours inclu | ided: 0.0 | | | | | | |
| Learning activity and number of study hours | Learning activity Participation in classes include plan | | | | Self-study SUM | | | |
| | Number of study hours | 45 | | 8.0 | | 47.0 | | 100 |
| Subject objectives | Presentation of theoretical basics of heat and mass transfer processes. Paying attention to the analogy of heat and mass transfer processes. Supporting theoretical considerations with examples of calculations. | | | | | | | |
| Learning outcomes | Course out | come | Subject outcome | | | Method of verification | | |
| | [K7_W08] possesses widened knowledge within the range of design methods of hydraulic systems, heating and fluid-flow machines and transport devices | | The student knows and understands the mechanisms of heat and mass transport. | | | [SW3] Assessment of knowledge contained in written work and projects | | |
| | [K7_W03] possesses a profound knowledge on thermodynamic processes and their simulation, knows simulation methods and programs aiding the design and operation of power generating machines and process equipment, including renewable energy sources, air conditioning and cooling | | The student knows the procedures for calculating heat and mass flux. | | | [SW1] Assessment of factual knowledge | | |
| | conditioning and cooling [K7_U08] is able to design a procedural equipment or device compliant with the specifications using a design aid system in the form of a design documentation, selecting the appropriate model, performing critical analysis with the proper selection of tools and technologies | | The student knows the procedures for calculating surface area of heat and mass exchangers | | | [SU4] Assessment of ability to use methods and tools | | |

| Outlinet and and | A Heat transfer | | | | | | | |
|---------------------|---|---|--|--|--|--|--|--|
| Subject contents | A. Heat transfer | | | | | | | |
| | | | | | | | | |
| | 1. Conduction, convection, radiation | | | | | | | |
| | | | | | | | | |
| | | | | | | | | |
| | Common heat transfer Heat transfer with phase change | | | | | | | |
| | | | | | | | | |
| | | | | | | | | |
| | | | | | | | | |
| | 4. Heat exchangers | | | | | | | |
| | B. Mass transfer | | | | | | | |
| | | | | | | | | |
| | | | | | | | | |
| | 1. Diffusion, convection, | | | | | | | |
| | | | | | | | | |
| | Analogy between heat and mass transfer Simultaneous heat and mass tarnsfer | | | | | | | |
| | | | | | | | | |
| | | | | | | | | |
| Prerequisites | Applied thermodynamics, heat transfer | | | | | | | |
| and co-requisites | , applied alemedynamics, near act | | | | | | | |
| Assessment methods | Subject passing criteria | Passing threshold | Percentage of the final grade | | | | | |
| and criteria | numerical exercises | 56.0% | 50.0% | | | | | |
| | lecture | 56.0% | 50.0% | | | | | |
