

Subject card

Subject name and code	Statistical Data Analysis, PG_00058746							
Field of study	Environmental Engineering							
Date of commencement of studies	October 2022		Academic year of realisation of subject			2022/2023		
Education level	first-cycle studies		Subject group			Obligatory subject group in the field of study Subject group related to scientific research in the field of study		
Mode of study	Full-time studies		Mode of delivery			at the university		
Year of study	1		Language of instruction			Polish		
Semester of study	2		ECTS credits			2.0		
Learning profile	general academic profile		Assessment form			assessment		
Conducting unit	Department Of Environmental Engineering Technology -> Faculty Of Civil And Environmental Engineering -> Wydziały Politechniki Gdańskiej							Engineering ->
Name and surname	Subject supervisor	dr hab. inż. Eliza Kulbat						
of lecturer (lecturers)	Teachers	dr inż. Wojciech Artichowicz dr hab. inż. Eliza Kulbat						
Lesson types and methods	Lesson type	Lecture	Tutorial	Laboratory	Projec	roject Semin		SUM
of instruction	Number of study hours	15.0	0.0	15.0	0.0		0.0	30
	E-learning hours included: 0.0							
Learning activity and number of study hours	Learning activity Participation in classes include plan				Self-study SUM			
	Number of study hours 30		5.0		20.0		55	
Subject objectives	The purpose of the course is to familiarize students with the basics of statistical data analysis.							
Learning outcomes	Course outcome		Subject outcome			Method of verification		
	1) description and analysis of hydrological phenomena; 2) description and analysis of meteorological phenomena; 3) solving project tasks of the sanitary industry;		The student has knowledge in mathematics, including: linear algebra, mathematical analysis and elements of mathematical statistics, probability calculus, applications of mathematics, including mathematical methods and numerical methods, necessary to describe and analyze hydrological and meteorological phenomena, solve design tasks of the sanitary industry and analyze environmental data.			[SW1] Assessment of factual knowledge [SW3] Assessment of knowledge contained in written work and projects		
	[K6_U01] has the ability to self- education, can obtain information from literature, databases and other sources, uses information technology, Internet resources; can integrate the obtained information, make their interpretation, as well as draw conclusions and formulate and justify opinions		The student has the ability to self-educate, is able to obtain information from the literature, databases and other sources, uses information technology, Internet resources; is able to integrate the obtained information, interpret it, as well as draw conclusions and formulate and justify opinions.			[SU2] Assessment of ability to analyse information [SU4] Assessment of ability to use methods and tools		
Subject contents	Preliminary data analysis: graphical representation of data, position and dispersion indices, random variable, probability. Basics of statistical inference: point and interval estimation. Visualization. Elements of machine learning.							
Prerequisites and co-requisites	Knowledge of high so	chool mathemat	tics.					

Data wygenerowania: 16.04.2025 04:21 Strona 1 z 2

Assessment methods	Subject passing criteria	Passing threshold	Percentage of the final grade			
and criteria	solution of tasks	60.0%	50.0%			
	test	60.0%	50.0%			
Recommended reading	Basic literature	Koronacki J., Mielniczuk J., Statistics for engineering and science students, Wyd. Naukowo-Tech., Warszawa 2001 (in polish)				
	Supplementary literature	Łomnicki A., Introduction to statistics for natural scientists, PWN, 2023 (in polish)				
	eResources addresses	Adresy na platformie eNauczanie:				
		Statystyczna analiza danych (IŚ, sII, stacj., 22/23) - Moodle ID: 29262 https://enauczanie.pg.edu.pl/moodle/course/view.php?id=29262				
Example issues/ example questions/ tasks being completed	Calculation of descriptive statistics for a selected set of data. Application of the logarithmic scale. Box plots. Use of spreadsheets. The basics of the Python programming language.					
Work placement	Not applicable					

Document generated electronically. Does not require a seal or signature.
