Subject card

Subject name and code	BSc Diploma Project I, PG_00058921			
Field of study	Informatics			
Date of commencement of studies	October 2022	Academic year of realisation of subject		2024/2025
Education level	first-cycle studies	Subject group		Optional subject group Subject group related to scientific research in the field of study
Mode of study	Part-time studies	Mode of delivery		at the university
Year of study	3	Language of instruction		Polish
Semester of study	6	ECTS credits		7.0
Learning profile	general academic profile	Assessment form		assessment
Conducting unit	Department of Computer Communications -> Faculty of Electronics, Telecommunications and Informatics			
Name and surname of lecturer (lecturers)	Subject supervisor	dr inż. Mariusz Szwoch		
	Teachers	dr inż. Mariusz Szwoch		

Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	0.0	15.0	0.0	15
	E-learning hours included: 0.0						

Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours	Self-study	SUM
	Number of study hours	15	7.0	153.0	175

Subject objectives	Preparation and presentation of B. Sc. diploma project.

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[K6_U10] can individually plan their own lifelong education, also by means of advanced information and communication technologies (ICT), and communicate with people from their environment, firmly justify their point of view, participate in debates, present, assess and discuss different opinions and points of view, as well as use specialist terminology related to the field of study in communication	Student can plan and present work on an engineering project being carried out, can discuss and defend the presented concepts.	[SU4] Assessment of ability to use methods and tools [SU5] Assessment of ability to present the results of task
	[K6_K01] is ready to cultivate and disseminate models of proper behaviour in and outside the work environment; make independent decisions; critically evaluate actions of their own, teams they lead and organisations they are part of; take responsibility for results of these actions; responsibly perform professional roles, including:n - observing rules of professional ethics and require it from others,n - care for the achievements and traditions of the professionn	Student prepares the diploma project in accordance with work ethics and professional standards.	[SK5] Assessment of ability to solve problems that arise in practice [SK1] Assessment of group work skills
	[K6_U11] can plan and organise individual and team work	Student can make valid contributions to the group work according to the agreed work schedule.	[SU3] Assessment of ability to use knowledge gained from the subject
	[K6_U09] can carry out a critical analysis of the functioning of existing technical solutions and assess these solutions, as well as apply experience related to the maintenance of technical systems, devices and facilities typical for the field of studies, gained in the professional engineering environment	Student can compare the obtained results with analogous existing solutions.	[SU1] Assessment of task fulfilment [SU4] Assessment of ability to use methods and tools
	[K6_U03] can design, according to required specifications, and make a simple device, facility, system or carry out a process, specific to the field of study, using suitable methods, techniques, tools and materials, following engineering standards and norms, applying technologies specific to the field of study and experience gained in the professional engineering environment	Student can use ICT techniques and technologies to complete a project according to the state of the art and existing norms.	[SU1] Assessment of task fulfilment [SU5] Assessment of ability to present the results of task

Subject contents	Discussion of selected theoretical and practical topics relevant to the project. Presentation of partial effects of successive phases of the project. Preparation of the final report.
Prerequisites and co-requisites	none

Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	final version of the project	50.0%	100.0%

Recommended reading	Basic literature	Diploma regulations of the Faculty of ETI (http://www.eti.pg.gda.pl/studenci/druki/) Project-related literature recommended by the project supervisor.
	Supplementary literature	none
	eResources addresses	Adresy na platformie eNauczanie:

Example issues/ example questions/ tasks being completed	
Work placement	Not applicable
