

。 GDAŃSK UNIVERSITY OF TECHNOLOGY

Subject card

Subject name and code	Diploma seminar, PG_00059087								
Field of study	Materials Engineering, Materials Engineering, Materials Engineering								
Date of commencement of studies	October 2022		Academic year of realisation of subject			2025/2026			
Education level	first-cycle studies		Subject group			Optional subject group			
Mode of study	Full-time studies		Mode of delivery			at the university			
Year of study	4		Language of instruction			Polish			
Semester of study	7		ECTS credits			1.0			
Learning profile	general academic profile		Assessment form			assessment			
Conducting unit	Department of Polymers Technology		y -> Faculty of Chemistry						
Name and surname	Subject supervisor		prof. dr hab. inż. Janusz Datta						
of lecturer (lecturers)	Teachers								
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Projec	t	Seminar	SUM	
	Number of study hours	0.0	0.0	0.0 0.0			15.0	15	
	E-learning hours included: 0.0								
Learning activity and number of study hours	Learning activity	Participation in classes including	n didactic led in study	Participation in consultation hours		Self-study		SUM	
	Number of study hours	15		1.0		9.0		25	
	Detailed discussion of the thesis plan. Discussion of the problems to be solved and the available knowledge on the topic. Discussion of the theory related to the thesis. Discussion of the experimental results and their quality.								
Learning outcomes	Course outcome		Subj		Method of verification				
	K6_U04		The student is able to use the competencies acquired in the course of study to describe and explain chemical phenomena and processes			[SU3] Assessment of ability to use knowledge gained from the subject			
	K6_W03		Student is able to relate material characteristics (including chemical structure) to product properties and understand the relationship			[SW3] Assessment of knowledge contained in written work and projects			
	K6_K01		The student understands the need to improve his competences and further develop himsel			[SK2] Assessment of progress of work			
	K6_U09		The student is able to prepare a presentation and deliver it in Polish or English.		[SU1] Assessment of task fulfilment				
	K6_U07		Student is able to independently search for information in the field of engineering materials .from various literature sources written in Polish or English.			[SU5] Assessment of ability to present the results of task			
Subject contents	Discussion of the thesis topic and preliminary experimental results with analysis								
Prerequisites and co-requisites									
Assessment methods and criteria	Subject passing criteria		Passing threshold			Percentage of the final grade			
	presentation evaluation		50.0%			100.0%			
Recommended reading	Basic literature		Literature agreed with the supervisor						
	Supplementary literature		Literature agreed with the supervisor						

	eResources addresses	Adresy na platformie eNauczanie:
Example issues/ example questions/ tasks being completed		
Work placement	Not applicable
