Subject name and code	, PG_00038398								
Field of study	Electrical Engineering								
Date of commencement of studies	October 2021		Academic year of realisation of subject			2022/2023			
Education level	first-cycle studies		Subject group			Optional subject group			
Mode of study	Part-time studies		Mode of de	livery		at the university			
Year of study	2		Language of instruction			English			
Semester of study	3		ECTS credits			2.0			
Learning profile	general academic profile		Assessment form			assessment			
Conducting unit	Language Centre -> \	Vice-Rector for	Education						
Name and surname	Subject supervisor	mgr Marzena Grygiel							
of lecturer (lecturers)	Teachers		mgr Krzysztof Lis

Subject objectives	Development and consolidation of English language command, including reading, speaking, listening, writing and translation in a technical environment.								
Learning outcomes	Course out	Subject outcome			Method of verification				
	[K6_W81] has knowledge of grammatical structures and lexical resources needed to communicate in foreign language in terms of general and specialist language related to field of study		A student has the ability to produce grammatically and lexically correct spoken utterances referring to general topics and topics concerning the specialist field of study.		[SW2] Assessment of knowledge contained in presentation [SW3] Assessment of knowledge contained in written work and projects				
	[K6_K82] is equipped to participate in lectures, seminars and laboratory classes conducted in foreign language		A student is able to understand a variety of spoken academic texts e.g. lectures.			[SK4] Assessment of communication skills, including language correctness [SK1] Assessment of group work skills [SK2] Assessment of progress of work			
	[K6_U82] is able to obtain and process information related to field of study and academic environment in foreign language at B2 level of the Common European Framework of Reference for Languages (CEFR)		A student has the ability to produce grammatically and lexically correct spoken utterances referring to general topics and professional or academic environment.			[SU1] Assessment of task fulfilment [SU2] Assessment of ability to analyse information [SU5] Assessment of ability to present the results of task			
	[K6_K81] is able to cooperate in international team		A student is able to work in a team, discuss case studies and solve problems using appropriate expressions.			[SK4] Assessment of communication skills, including language correctness [SK5] Assessment of ability to solve problems that arise in practice [SK2] Assessment of progress of work

Subject contents	Vocabulary:
Subject contents	Developing general knowledge of the language and introducing specialist terms and expressions used in the field of <i>electrical engineering</i> . Practising complex lexical structures. Introducing basic terminology of mathematics and general engineering.
	Grammar:
	Developing B2/C1 level grammar structures essential for written and verbal communication.
	Writing:
	Practising skills in writing various formal and informal texts such as reports, emails, CVs, notes, instructions, descriptions of processes.
	Reading:
	Developing various reading techniques indispensable for dealing with general and professional texts.
	Listening:
	Developing listening comprehension skills necessary in workplace and everyday life situations such as telephone conversations, interviews, customer service communication, lectures and presentations.
	Speaking:
	Practising general and specialist language communication skills such as presenting arguments, solving problems, participating in case studies, holding formal and informal conversations and job interviews. Practising the correct pronunciation and intonation of expressions.
Prerequisites and co-requisites	Before joining a language group, students are expected to be at level B1 or higher.
