

Subject card

Subject name and code	Production Management, PG_00037979						
Field of study	Management						
Date of commencement of studies	February 2023	Academic year of realisation of subject			2022/2023		
Education level	second-cycle studies	Subject group			Obligatory subject group in the field of study Subject group related to scientific research in the field of study		
Mode of study	Part-time studies	Mode of delivery			at the university		
Year of study	1	Language of instruction			Polish		
Semester of study	1	ECTS credits			2.0		
Learning profile	general academic profile	Assessment form			assessment		
Conducting unit	Faculty of Management and Economics						
Name and surname of lecturer (lecturers)	Subject supervisor	dr hab. inż. Marek Wirkus					
	Teachers	dr hab. inż. Marek Wirkus dr inż. Jolanta Łopatowska					
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	8.0	8.0	0.0	0.0	0.0	16
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours	Self-study	SUM		
	Number of study hours	16	4.0	30.0	50		
Subject objectives	The goal of the course is obtain by the students knowledge about contemporary operation systems of production and services. It gives the students skills in creation operation strategy and design operation systems.						
Learning outcomes	Course outcome	Subject outcome			Method of verification		
	[K7_W03] has a broadened knowledge of the sciences of management and economics, including the evolution of the various types of structures and institutions and the links between them	Knows the methods of design Operation Processes. Process Layout Planning. Process Reengineering and Improvement. Process Management. Operations Decisions. Forecasting. Aggregate Planning. Materials Management. Inventory Control. Material Requirement Planning (MRP).Just-in-Time Systems. The Kanban System.			[SW1] Assessment of factual knowledge		
	[K7_W09] has an in-depth knowledge allowing for analysing, diagnosing and solving problems arising in organisations and its particular areas of activity as well as methods of estimating value, market and strategic potential	Knows the rules of Work-Force Management, Work standards, Methods of Work Measurement, Teamwork.			[SW1] Assessment of factual knowledge		
	[K7_U05] selects appropriate methods and tools to describe and analyse the problems and areas of activity of the organization and its environment and assess their usefulness and effectiveness, with particular emphasis on their application in government, local government and non-profit organizations	Description of the produkt. Operation strategy. Identification of processes. Selecting of technology equipment. Control System of Production (Production Management System) Plan of Layout Implementing Plan.			[SU1] Assessment of task fulfilment		

Subject contents	Introduction. Historical view. Manufacturing strategy as a competitive tool. Objectives and measures of operational activity. Productivity. The structure of the production system. Structure, types and forms of organization of production. Organization of the production process. Production planning and control. Coordination of demand and production. Supplies management. Material Requirements Planning (MRP) method. Changing the principles of production management in the conditions of using information technology: MRP II, CIM and BPR. The concept of JIT and Lean Manufacturing. Kanban flow control system.		
Prerequisites and co-requisites			
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	Exam	60.0%	50.0%
	Project	80.0%	50.0%
