

Subject card

| Subject name and code | Master thesis, PG_00057468 | | | | | | | | |
|---|--|---|---|-------------------------------------|--------|---|------------|-----|--|
| Field of study | Mechanical Engineering | | | | | | | | |
| Date of commencement of studies | February 2023 | | Academic year of realisation of subject | | | 2023/2024 | | | |
| Education level | second-cycle studies | | Subject group | | | Optional subject group | | | |
| Mode of study | Part-time studies | | Mode of delivery | | | at the university | | | |
| Year of study | 2 | | Language of instruction | | | Polish | | | |
| Semester of study | 3 | | ECTS credits | | | 20.0 | | | |
| Learning profile | general academic profile | | Assessment form | | | assessment | | | |
| Conducting unit | Institute of Mechanics and Machine Design -> Faculty of Mechanical Engineering and Ship Technol | | | | | echnology | | | |
| Name and surname | Subject supervisor | | | | | | | | |
| of lecturer (lecturers) | Teachers | | | | | | | | |
| Lesson types and methods | Lesson type | Lecture | Tutorial | Laboratory | Projec | :t | Seminar | SUM | |
| of instruction | Number of study hours | 0.0 | 0.0 | 0.0 | 0.0 | | 0.0 | 0 | |
| | E-learning hours included: 0.0 | | | | | | | | |
| Learning activity and number of study hours | Learning activity | Participation in classes include plan | | Participation in consultation hours | | Self-study | | SUM | |
| | Number of study hours | 0 | 40.0 | | 460.0 | | 500 | | |
| Subject objectives | Preparation by the student of a master's thesis on a topic and scope defined by the thesis supervisor | | | | | | | | |
| Learning outcomes | Course outcome Subject outcome Method of verification | | | | | | rification | | |
| | [K7_K03] understands the importance of the necessity of solving dilemmas connected with practicing a profession and providing safe working conditions in manufacturing processes and in operation of machines and devices | | The student can take into account aspects related to safe working conditions and performance when solving technical problems, in particular those posed in the work. | | | [SK3] Assessment of ability to organize work [SK5] Assessment of ability to solve problems that arise in practice | | | |
| | [K7_K02] correctly identifies professional problems and is able to define the priorities and hierarchy using knowledge in solving problems | | The student, on the basis of a critical review of the literature, correctly identifies the problems to be solved and proposes an appropriate way of solving them. | | | [SK4] Assessment of communication skills, including language correctness | | | |
| | [K7_U03] is able to prepare construction, technological and operational documentation in compliance with appropriate standards, including technical drawings in CAD 2D and 3D systems | | appropriate engineering tools as | | | [SU3] Assessment of ability to use knowledge gained from the subject [SU4] Assessment of ability to use methods and tools | | | |
| | [K7_U06] when solving engineering problems on design, technology and operation of machines is able to assess and classify typical methods and tools, define systemic and ex-technical aspects using modern calculating methods and design tools or modifying the current ones | | The student prepares a critical review of the literature related to the topic of the thesis and, on this basis, evaluates possible ways of solving the given problem. | | | [SU1] Assessment of task fulfilment [SU2] Assessment of ability to analyse information [SU5] Assessment of ability to present the results of task | | | |
| Subject contents | Principles and requirements for the Master's thesis. Implementation of the thesis under the supervision of the supervisor according to the defined scope and topic. Editorial preparation of the thesis content for publication. Consultation of the project with the supervisor and, if necessary, other experts. Preparation of a multimedia presentation. | | | | | | | | |
| Prerequisites and co-requisites | Registration for the diploma semester. | | | | | | | | |
| Assessment methods and criteria | Subject passing criteria Passing threshold | | | Percentage of the final grade | | | | | |
| | Evaluation of the thesis 56.0% | | | | 100.0% | | | | |
| | • | | | | | | | | |
