Subject card

| Subject name and code | CAD - Computer Aided Design, PG_00053771 |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Field of study | Engineering Management |  |  |  |  |  |  |
| Date of commencement of studies | October 2022 |  | Academic year of realisation of subject |  |  | 2022/2023 |  |
| Education level | first-cycle studies |  | Subject group |  |  | Obligatory subject group in the field of study <br> Subject group related to scientific research in the field of study |  |
| Mode of study | Full-time studies |  | Mode of delivery |  |  | at the university |  |
| Year of study | 1 |  | Language of instruction |  |  | Polish |  |
| Semester of study | 1 |  | ECTS credits |  |  | 3.0 |  |
| Learning profile | general academic profile |  | Assessment form |  |  | assessment |  |
| Conducting unit | Department of Informatics in Management -> Faculty of Management and Economics |  |  |  |  |  |  |
| Name and surname of lecturer (lecturers) | Subject supervisor |  | dr inż. Igor Garnik |  |  |  |  |
|  | Teachers |  | dr inż. Igor Garnik |  |  |  |  |
| Lesson types and methods of instruction | Lesson type | Lecture | Tutorial | Laboratory | Project | Seminar | SUM |
|  | Number of study hours | 0.0 | 0.0 | 30.0 | 0.0 | 0.0 | 30 |
|  | E-learning hours included: 0.0 |  |  |  |  |  |  |
| Learning activity and number of study hours | Learning activity | Participation in didactic classes included in study plan |  | Participation in consultation hours |  | Self-study | SUM |
|  | Number of study hours | 30 |  | 5.0 |  | 40.0 | 75 |
| Subject objectives | The aim of the course is to familiarize students with the basics of industrial design with the use of specialized CAD / CAM / CAE software. The main goal is to introduce students to the field of technology in which every engineer is constantly involved, as well as to acquire knowledge and skills necessary to communicate with designers and constructors in the process of industrial design. |  |  |  |  |  |  |
| Learning outcomes | Course outcome |  | Subject outcome |  |  | Method of verification |  |
|  | [K6_W05] knows the statistical and IT methods and tools that enable the acquisition and presentation of data on the organisation's resources, including technical resources |  | The student is able to perform technical documentation using the CAD/CAM/CAE software; is able to properly format the prints, visualisations and data sheets; can transfer data between different platforms (CAD/CAM/ CAE software, office software). |  |  | [SW1] Assessment of factual knowledge <br> [SW2] Assessment of knowledge contained in presentation |  |
|  | [K6_U06] uses basic theoretical knowledge to solve selected organizational problems, design technical solutions and manage projects, including engineering projects |  | The student understands the specific of computer-aided design process; knows the rules and standards for creating technical documentation using CAD/CAM/ CAE software |  |  | [SU1] Assessment of task fulfilment [SU3] Assessment of ability to use knowledge gained from the subject |  |
| Subject contents | Introduction. Fusion 360 user interface. Modeling of simple solids. Sketching. The use of FORM space. Modification of models and creation of components. Design project management. Assembly of components. Rendering and creating drawing documentation. CAM and CAE elements. Assembly animations. |  |  |  |  |  |  |
| Prerequisites and co-requisites | Basic knowledge of engineering drawing, knowledge of computer operating systems |  |  |  |  |  |  |
| Assessment methods and criteria | Subject passing criteria |  | Passing threshold |  |  | Percentage of the final grade |  |
|  | Practical exercises |  | 60.0\% |  |  | 40.0\% |  |
|  | Colloquium |  | 60.0\% |  |  | 60.0\% |  |
| Recommended reading | Basic literature |  | 2. Software producer's training materials available online. |  |  |  |  |

|  | Supplementary literature | 1. Any literature on the design with Fusion 360. |
