

## Subject card

Subject name and code	Introduction to urban development planning, PG_00053451						
Field of study	Spatial Development						
Date of commencement of studies	February 2023	Academic year of realisation of subject			2022/2023		
Education level	second-cycle studies	Subject group			Obligatory subject group in the field of study Subject group related to scientific research in the field of study		
Mode of study	Full-time studies	Mode of delivery			at the university		
Year of study	1	Language of instruction			Polish		
Semester of study	1	ECTS credits			3.0		
Learning profile	general academic profile	Assessment form			exam		
Conducting unit	Department of Urban Design and Regional Planning -> Faculty of Architecture						
Name and surname of lecturer (lecturers)	Subject supervisor	dr hab. inż. arch. Izabela Mironowicz					
	Teachers	dr hab. inż. arch. Izabela Mironowicz					
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	15.0	15.0	0.0	0.0	0.0	30
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours		Self-study		SUM
	Number of study hours	30	5.0		40.0		75
Subject objectives	<p><b>Lectures</b> in: <i>Introduction to urban development planning</i> and <i>Comprehensive city planning</i> are conducted jointly.</p> <p>Classes and project from the subject <i>Comprehensive city planning</i> (15 + 30h) are conducted in agreement with the content of the lectures.</p> <p>During the lectures, the most important problems of modern cities will be discussed and possible ways of overcoming the challenges faced by cities will be discussed. An important element of the narrative will be the issue of city health and what factors have a positive impact on the health of residents.</p>						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	K7_U07	using the synthesis of information obtained from own literature studies to underpin critical statements in the seminar work	[SU1] Assessment of task fulfilment [SU2] Assessment of ability to analyse information [SU3] Assessment of ability to use knowledge gained from the subject [SU5] Assessment of ability to present the results of task
	K7_U02	analysis of examples of the revitalization policy of poviat cities in terms of the comprehensiveness of solving development problems with the use of the synergistic effect	[SU1] Assessment of task fulfilment [SU2] Assessment of ability to analyse information [SU3] Assessment of ability to use knowledge gained from the subject
	K7_W01	has in-depth and expanded knowledge of spatial management, urban planning and spatial planning, including activities used in the process of revitalization of degraded areas, ecological design and ICZM	[SW1] Assessment of factual knowledge
Subject contents	<p><b>LECTURES</b> (15h):</p> <p>Challenges for the contemporary cities. The specificity and the conditions of the work of urban planner/designer and the challenges that s/he has to face The notion of the city. Classic definitions of the city. Typology of the definitions.</p> <p>Urban development: territorial, demographic, social and economic. Development measures. The concept of quality of life.</p> <p>Models of the city.</p> <p>The concept of the structure of the city. Visual aspects of the city, methods of description and diagnosis.</p> <p><b>Seminar</b> (15h): an introduction to planning</p> <p>The synergistic effect and complexity of planning in the context of the revitalization process in poviat cities, based on Polish and foreign examples.</p>		
Prerequisites and co-requisites			
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	lecture evaluation	60.0%	65.0%
	seminar's evaluation	60.0%	35.0%
