

Subject card

Subject name and code	Development policy, PG_00053462						
Field of study	Spatial Development						
Date of commencement of studies	February 2023		Academic year of realisation of subject		2023/2024		
Education level	second-cycle studies		Subject group		Obligatory subject group in the field of study		
Mode of study	Full-time studies		Mode of delivery		at the university		
Year of study	2		Language of instruction		Polish literature on the subject and auxiliary materials, due to the international specificity of the subject, are mostly in English		
Semester of study	3		ECTS credits		1.0		
Learning profile	general academic profile		Assessment form		assessment		
Conducting unit	Department of Urban Design and Regional Planning -> Faculty of Architecture						
Name and surname of lecturer (lecturers)	Subject supervisor		dr inż. arch. Gabriela Rembarz				
	Teachers		dr inż. arch. Gabriela Rembarz				
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	15.0	0.0	0.0	0.0	0.0	15
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	15		1.0		9.0	25
Subject objectives	The aim of the course is to broaden understanding of the challenges concerning the 17 Sustainable Development Goals implementation policies. The goal No 11 "Sustainable Cities and Communities", will stay in the main focus, as it relates directly to spatial management based on integrated urban planning.						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
	K7_W05		each student has extended understanding of the correlation between country development policy and global development goals implemented through the European Urban Agenda that sets the directions for the development of the country planning system		[SW2] Assessment of knowledge contained in presentation [SW3] Assessment of knowledge contained in written work and projects		
	K7_K01		each student, working in a small team, is able to learn and analyze issues related to planning and development of cities in developing countries, that differ from the local reality, draw conclusions and synthesize them, and submit them to a debate in a public presentation		[SK4] Assessment of communication skills, including language correctness [SK5] Assessment of ability to solve problems that arise in practice		
Subject contents	1. Defining conceptual boundaries: development policy. Reminder of the basic concepts, theories and doctrines concerning the issue of economic growth in the context of urban development.2. World development policy in the context of the activities of the UN and OECD as well as the US and the EU,3. EU regional policy: the Lisbon Treaty, EU cohesion policy and its funds, ESPON and BSR WASAB activities,4. Polish development policy and strategy: national development policy, regional policy, cohesion policy, spatial policy,5. Urban development policy in international and national terms: guidelines of UN Habitat, World Bank and Rio +20 convention, findings of the Habitat III (Quito) New Urban Agenda conference and examples of applications from around the world.6. Polish urban development policy,7. Implementation of the assumptions of the development policy on the example of the development strategies of Polish and foreign citiesThe introduction of the cycle is a lecture discussing examples of problems and applied solutions related to the implementation of the 11th SDG Cities World Sustainable Development Goal. The summary is a general discussion in the lecture group, underpinned by the results of the homework which is the completion of the subject.						

Prerequisites and co-requisites			
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	presence and active participation in the discussion	60.0%	50.0%
	public poster presentation	60.0%	50.0%
