

Subject card

Subject name and code	Management of coastal areas and infrastructure, PG_00053474						
Field of study	Spatial Development						
Date of commencement of studies	February 2023		Academic year of realisation of subject		2023/2024		
Education level	second-cycle studies		Subject group		Optional subject group Subject group related to scientific research in the field of study		
Mode of study	Full-time studies		Mode of delivery		at the university		
Year of study	1		Language of instruction		Polish		
Semester of study	2		ECTS credits		1.0		
Learning profile	general academic profile		Assessment form		assessment		
Conducting unit	Department of Urban Design and Regional Planning -> Faculty of Architecture						
Name and surname of lecturer (lecturers)	Subject supervisor		dr Miłosz Marciniak				
	Teachers		dr Miłosz Marciniak				
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	15.0	0.0	0.0	0.0	0.0	15
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	15		1.0		9.0	25
Subject objectives	Discussion of issues above infrastructure systems, urban systems, with analizys and implementation and execiute solutions for infrastructure projects and urban assumptionsDeveloping skills, work with obtaining information from literature, databases, and other sources. shaping skills how to collects and interprets empirical data by extending theoretical knowledge of infrastructure and urban systems.						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
	K7_U06		Student has an orderly, theoretically based knowledge, covering the key economic issues spatial, taking into account legal and other non-technical aspects, including social impact and economic efficiency		[SU4] Assessment of ability to use methods and tools [SU2] Assessment of ability to analyse information		
	K7_W04		Student is able to obtain information from literature, databases and other sources; collects, integrates and interprets empirical data in the field of spatial management, defines issues in the field of infrastructure and its relations with urban assumptions and the co-functioning of these systems. On this basis, he can prepare a short text or presentation, can draw conclusions and formulate and justify his opinions in detail.		[SW2] Assessment of knowledge contained in presentation [SW1] Assessment of factual knowledge
