

Subject card

Subject name and code	MSc Diploma Thesis, PG_00057197							
Field of study	Ocean Engineering							
Date of commencement of studies	February 2023		Academic year of realisation of subject			2023/2024		
Education level	second-cycle studies		Subject group			Optional subject group Subject group related to scientific research in the field of study		
Mode of study	Part-time studies		Mode of delivery			at the university		
Year of study	2		Language of instruction			Polish		
Semester of study	3		ECTS credits			20.0		
Learning profile	general academic profile		Assessment form		exam			
Conducting unit	Institute of Ocean Engineering and Ship Technology -> Faculty of Mechanical Engineering and Ship Technology							
Name and surname	Subject supervisor							
of lecturer (lecturers)	Teachers							
Lesson types and methods	Lesson type	Lecture	Tutorial	Laboratory	Project	t	Seminar	SUM
of instruction	Number of study hours	0.0	0.0	0.0	0.0	0.0		0
	E-learning hours included: 0.0							
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study		SUM
	Number of study hours	0		25.0		475.0		500
Subject objectives	The aim is to prepare a master's thesis in accordance with the requirements of the Gdansk University of Technology							

Data wydruku: 04.05.2024 07:50 Strona 1 z 2

Learning outcomes	Course outcome	Subject outcome	Method of verification				
	[K7_W10] has knowledge allowing the writing of an MSc diploma thesis on ocean technology	The student demonstrates sufficient knowledge to prepare a master's thesis.	[SW3] Assessment of knowledge contained in written work and projects				
	[K7_U01] can obtain information from literature, databases and other sources, can verify and organize the obtained information, interpret them and form conclusions and justified opinions	The student performs a proper review of the literature in the area of the thesis topic.	[SU2] Assessment of ability to analyse information				
	[K7_U05] can conduct an initial economic analysis of an investment in the range of ocean technology, indicate detailed rules of law and branch regulations	The student presents a feasibility study.	[SU3] Assessment of ability to use knowledge gained from the subject				
	[K7_U07] in compliance with a formulated specification and with the aid of appropriate tools and methods, is able to complete an advanced engineering task within the range of design, construction and operation of ocean technology objects and systems	The student presents the results of an advanced engineering problem.	[SU5] Assessment of ability to present the results of task				
	[K7_U04] can apply mathematical methods and models and computer simulations to analyse, design, and assess the functioning of ocean technology objects and systems and their elements	The student applies appropriate scientific methodology.	[SU4] Assessment of ability to use methods and tools				
	[K7_W07] has knowledge on the development perspectives of ocean technology objects and systems, knows the newest and most relevant achievements in ocean technology	The student presents modern solutions that contribute to the development of ocean engineering.	[SW3] Assessment of knowledge contained in written work and projects				
	[K7_K03] is aware of their social role as a graduate of a technical university, is aware of the importance of adhering to professional ethics and respect of the diversity of views	The student presents socially beneficial solutions in the thesis.	[SK5] Assessment of ability to solve problems that arise in practice				
Subject contents	Master's thesis preparation						
•	Acquisition of knowledge covering the entire course of study and the skills to apply this knowledge						
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade				
	Thesis evaluation	50.0%	100.0%				
Recommended reading	Basic literature https://owl.excelsior.edu/research/outlining/outlining-imrad/						
	Supplementary literature	https://writingcenter.gmu.edu/guides/writing-an-imrad-report					
	eResources addresses Adresy na platformie eNauczanie:						
Example issues/ example questions/ tasks being completed	Prepare your master's thesis						
Work placement	Not applicable
