

Subject card

Subject name and code	Diploma Seminar, PG_00057217						
Field of study	Ocean Engineering						
Date of commencement of studies	February 2023		Academic year of realisation of subject		2023/2024		
Education level	second-cycle studies		Subject group		Optional subject group		
Mode of study	Part-time studies		Mode of delivery		at the university		
Year of study	2		Language of instruction		Polish		
Semester of study	3		ECTS credits		2.0		
Learning profile	general academic profile		Assessment form		assessment		
Conducting unit	Department of Ship Manufacturing Technology, Quality Systems and Materials Science -> Faculty of Mechanical Engineering and Ship Technology						
Name and surname of lecturer (lecturers)	Subject supervisor		prof. dr hab. inż. Janusz Kozak				
	Teachers						
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	0.0	0.0	18.0	18
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	18		5.0		27.0	50
Subject objectives	<p>The student learns the formal rules of preparing a diploma thesis.</p> <p>The student prepares a thesis under the supervision of the supervisor.</p> <p>The student learns the rules of preparing a presentation and the formal basis of the diploma examination.</p> <p>The student presents his presentation during the seminar and discusses the presented content with the group.</p>						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[K7_K01] is aware of the need of constant learning, can critically assess the content, is aware of the meaning of knowledge in solving cognitive and practical problems	Preparing to write a thesis, the student completes the knowledge about the topic of the dissertation by selecting literature and discussing it during the seminar	[SK2] Assessment of progress of work [SK3] Assessment of ability to organize work
	[K7_U09] has the ability to obtain and apply information, also in a foreign language, in professional activity	When completing the knowledge, the student uses the websites of specialized companies, conferences, articles in trade magazines, usually in English	[SU3] Assessment of ability to use knowledge gained from the subject [SU2] Assessment of ability to analyse information
	[K7_W10] has knowledge allowing the writing of an MSc diploma thesis on ocean technology	The student completes the specialist knowledge related to the specificity of the topic of work according to the requirements discussed during the seminar	[SW3] Assessment of knowledge contained in written work and projects
	[K7_U08] can manage the work of a team, coordinate the conducting of a design or research task	Student knows needs for spread activities and is able be leader of such action	[SU4] Assessment of ability to use methods and tools
	[K7_U03] can conduct a detailed analysis of the obtained results and present them in the form of a technical report or presentation, also in English	As part of the diploma thesis, the student prepares an abstract in Polish and English	[SU2] Assessment of ability to analyse information
Subject contents	[K7_W08] has knowledge necessary to understand economical, social and legal conditions and effects of engineering activities, knows general principles of initiating and develop forms of private entrepreneurship and has knowledge on the protection of industrial and intellectual property and on the copyrights	In accordance with the topic being developed, the student is able to synthetically capture and present the effects of engineering activities in economic and social terms. The study contains material documented in accordance with the copyright law	[SW3] Assessment of knowledge contained in written work and projects [SW2] Assessment of knowledge contained in presentation
	1. Instructions relating to the formal requirements for writing a thesis 2. Sample work plan - with explanations <ol style="list-style-type: none"> Formulating the purpose of the work Description of the state of knowledge in accordance with the topic under development Own contribution Results of the analysis of the topic Summary 3. Preparation of the presentation 4. The most common mistakes		
	Prerequisites and co-requisites		
	Assessment methods and criteria	Subject passing criteria	Passing threshold Percentage of the final grade
		Seminar	60.0% 100.0%
	Recommended reading	Basic literature	https://oio.pg.edu.pl/zasady-dyplomowania Huckin T.N, Olsen L.A., Technical Writing and Professional Communication, McGraw-Hill, Inc.
		Supplementary literature	Principles of graduation: Faculty procedure approved by the Faculty Council of WOIo on June 24, 2020 MS Word - manual Power Point - manual
		eResources addresses	Adresy na platformie eNauczanie:

Example issues/ example questions/ tasks being completed	Preparation and presentation of the initial version of the presentation of the thesis
Work placement	Not applicable
