

Subject card

Subject name and code	English, PG_00051734							
Field of study	Materials Engineering, Materials Engineering, Materials Engineering							
Date of commencement of studies	February 2023		Academic year of realisation of subject		2022/2023			
Education level	second-cycle studies		Subject group					
Mode of study	Full-time studies		Mode of delivery		at the university			
Year of study	1		Language of instruction		English			
Semester of study	1		ECTS credits		2.0			
Learning profile	general academic profile		Assessment form		assessment			
Conducting unit	Language Centre -> Vice-Rector for Education							
Name and surname of lecturer (lecturers)	Subject supervisor		mgr Martyna Michalska-Pieniak					
	Teachers		mgr Martyna Michalska-Pieniak					
			mgr Małgorzata Piechocińska					
		dr Iwona Mokwa-Tarnowska						
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Projec	t	Seminar	SUM
	Number of study hours	0.0	30.0	0.0	0.0		0.0	30
	E-learning hours included: 0.0							
Learning activity and number of study hours	earning activity Participation in classes include plan				Self-study		SUM	
	Number of study hours	30		0.0		0.0		30
Subject objectives	.The aim of the course is to develop the ability to use English effectively in the academic and professional environments.

Learning outcomes	Course outcome	Subject outcome	Method of verification			
	[K7_W81] has knowledge of complex grammatical structures and diverse lexical resources needed to communicate in foreign language in terms of general and specialist language related to field of study	Students will be able to: • gain information from various sources without violating copyright law; • use specialist vocabulary in speaking and writing; • understand, analyse and translate technical texts written in English; • use formal English.	[SW2] Assessment of knowledge contained in presentation			
	[K7_U81] is able to communicate with ease in foreign language at B2+ level of the Common European Framework of Reference for Languages (CEFR) in everyday life, in academic and professional environments	Students will be able to: • communicate in English at university, in the workplace and in other environments; • communicate in everyday English.	[SU3] Assessment of ability to use knowledge gained from the subject			
	[K7_U82] is able to proficiently obtain and process information related to field of study and academic environment in foreign language at B2+ level of the Common European Framework of Reference for Languages (CEFR)	Successful communication in daily life and in an academic and professional environment. Understanding of specialist literature and technical instructions. Translation of short technical texts. Writing formal letters, CVs, covering letters and summaries of specialist texts. Understanding of speeches and lectures.	[SU2] Assessment of ability to analyse information			
	[K7_K81] is able to cooperate in international team at her/his own university, during work placement and during study abroad	Students will be able to: • collaborate to produce a group project.	[SK1] Assessment of group work skills			
	[K7_K82] is equipped to participate actively in lectures, seminars and laboratory classes conducted in foreign language	Students will be able to: • communicate in English at university, in the workplace and in other environments;	[SK4] Assessment of communication skills, including language correctness [SK1] Assessment of group work skills			
Subject contents	Professional language development enhanced by scenario-based exercises, case studies, comprehension tasks, reading assignments, professional articles, vocabulary exercises contextualized in the field of materials engineering. Writing:					
	Developing skills in writing various texts essential in the academic and work environments, including an abstract of an academic thesis, a report, a data analysis and a process description. Developing writing techniques such as style and register, coherence and cohesion, using in-text references and paraphrasing.					
	Reading:					
	Developing comprehension skills in reading academic and professional texts, with particular emphasis on critical reading, skimming and scanning, selecting and prioritising information, recognising and understanding implicit meanings, and note taking.					
	Listening and speaking:					
	Developing listening comprehension and communication skills in the academic and work environments. Practising giving presentations, participating in formal business meetings, videoconferences and negotiations. Developing intercultural awareness, critical thinking and project management skills.					
Prerequisites	Before joining a language group, stu	dents are expected to demonstrate l	anguage ability at level B2.			
and co-requisites			·
