

Subject card

Subject name and code	, PG_00059756						
Field of study	Ocean Engineering						
Date of commencement of studies	February 2022	Academic year of realisation of subject			2022/2023		
Education level	second-cycle studies	Subject group					
Mode of study	Part-time studies	Mode of delivery			at the university		
Year of study	2	Language of instruction			Polish		
Semester of study	3	ECTS credits			4.0		
Learning profile	general academic profile	Assessment form			assessment		
Conducting unit	Zakład Projektowania Okrętu -> Institute of Ocean Engineering and Ship Technology -> Faculty of Mechanical Engineering and Ship Technology						
Name and surname of lecturer (lecturers)	Subject supervisor	dr inż. Maciej Reichel					
	Teachers						
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	0.0	0.0	0.0	0
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours		Self-study		SUM
	Number of study hours	0	0.0		0.0		0
Subject objectives	Preparation for submitting a research proposal to national or international institution						
Learning outcomes	Course outcome	Subject outcome			Method of verification		
	[K7_U71] is able to apply knowledge from humanistic, social, economic or legal sciences in order to solve problems	Student is able to compose a proposal according to requirements			[SU4] Assessment of ability to use methods and tools		
	[K7_K71] is able to explain the need to apply knowledge from humanistic, social, economic or legal sciences in order to function in a social environment	Student identifies the impact of submitted project on the science and society			[SK4] Assessment of communication skills, including language correctness		
	[K7_W08] has knowledge necessary to understand economical, social and legal conditions and effects of engineering activities, knows general principles of initiating and develop forms of private entrepreneurship and has knowledge on the protection of industrial and intellectual property and on the copyrights	Student identifies the need from market and society for the results of the submitted project			[SW3] Assessment of knowledge contained in written work and projects		
Subject contents	Analysis of call requirements						
	Way of writing a proposal						
	Analysis of evaluation criteria						
Prerequisites and co-requisites							
Assessment methods and criteria	Subject passing criteria	Passing threshold			Percentage of the final grade		
	proposal	100.0%			100.0%		
Recommended reading	Basic literature	Jak napisać wnioski o finansowanie badań naukowych, Rada Młodych Naukowców, Warszawa 2013					
	Supplementary literature	documents of current calls					

	eResources addresses	
Example issues/ example questions/ tasks being completed	analysis of call requirements	
Work placement	Not applicable
