

Subject card

Subject name and code	Investment Project Management in Transport, PG_00045916						
Field of study	Transport						
Date of commencement of studies	February 2023		Academic year of realisation of subject		2022/2023		
Education level	second-cycle studies		Subject group		Obligatory subject group in the field of study Subject group related to scientific research in the field of study		
Mode of study	Full-time studies		Mode of delivery		at the university		
Year of study	1		Language of instruction		Polish		
Semester of study	1		ECTS credits		2.0		
Learning profile	general academic profile		Assessment form		assessment		
Conducting unit	Department of Building Engineering -> Faculty of Civil and Environmental Engineering						
Name and surname of lecturer (lecturers)	Subject supervisor		dr inż. Marcin Szczepański				
	Teachers						
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	20.0	10.0	0.0	0.0	0.0	30
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	30		5.0		15.0	50
Subject objectives	Preparation for managing and performing professional work in a safe manner, observing legal requirements and health and safety rules as well as functioning on the labor market. Approximation of knowledge in the field of building licenses, design, construction management and running a business.						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
	[K7_U07] able to conduct a preliminary economic analysis of transport projects, identify detailed legal and industry regulations		Knows the principles of organization and economics of construction and installation works.		[SU1] Assessment of task fulfilment		
	[K7_K01] able to think and act creatively and enterprisingly; able to define priorities to support the delivery of an individual or group task; understands the need for continuous education and taking responsibility as a professional for their work and the work of the team		Knows the process of scheduling and creating dependency networks. Increases responsibility and professional awareness in the field of building licenses and design work.		[SK5] Assessment of ability to solve problems that arise in practice [SK1] Assessment of group work skills		
	[K7_W06] has broad knowledge of transport management		Knows the principles of organization, economics and management in conducting construction works, including transport at the construction site.		[SW3] Assessment of knowledge contained in written work and projects		

Subject contents	<ul style="list-style-type: none"> <li>- Building Law and accompanying Regulations</li> <li>- The scope and form of the construction project</li> <li>- BIOZ plan</li> <li>- Development of the construction site</li> <li>- Building schedules</li> <li>- Dependency Networks</li> <li>- Bill of Quantity + cost estimate</li> <li>- Building permit + building conditions</li> <li>- The drawing part in the construction design</li> </ul>								
Prerequisites and co-requisites	-								
Assessment methods and criteria	<table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="width: 50%;">Subject passing criteria</th> <th style="width: 25%;">Passing threshold</th> <th style="width: 25%;">Percentage of the final grade</th> </tr> </thead> <tbody> <tr> <td>project</td> <td>60.0%</td> <td>100.0%</td> </tr> </tbody> </table>	Subject passing criteria	Passing threshold	Percentage of the final grade	project	60.0%	100.0%		
Subject passing criteria	Passing threshold	Percentage of the final grade							
project	60.0%	100.0%							
Recommended reading	Basic literature	-							
	Supplementary literature	-
