

Subject card

Subject name and code	Thesis Seminar , PG_00041037						
Field of study	Transport						
Date of commencement of studies	February 2023	Academic year of realisation of subject			2023/2024		
Education level	second-cycle studies	Subject group			Optional subject group		
Mode of study	Full-time studies	Mode of delivery			at the university		
Year of study	2	Language of instruction			Polish		
Semester of study	3	ECTS credits			3.0		
Learning profile	general academic profile	Assessment form			assessment		
Conducting unit	Department of Railway Engineering -> Faculty of Civil and Environmental Engineering						
Name and surname of lecturer (lecturers)	Subject supervisor	prof. dr hab. inż. Eligiusz Mieloszyk					
	Teachers						
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	0.0	30.0	0.0	30
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours	Self-study	SUM		
	Number of study hours	30	10.0	35.0	75		
Subject objectives	The aim of subject is to learn about modern solutions in the range of transport on the basis of source material study.						
Learning outcomes	Course outcome	Subject outcome			Method of verification		
	[K7_U03] able to speak properly and clearly about a transport problem using modern audiovisual techniques	the student can assort the methods of modern and effective maintenance of transport infrastructure in the range appropriate for transport infrastructure speciality			[SU5] Assessment of ability to present the results of task		
	[K7_K01] able to think and act creatively and enterprisingly; able to define priorities to support the delivery of an individual or group task; understands the need for continuous education and taking responsibility as a professional for their work and the work of the team	the student can adequately determine the priorities serve to realisation of transportation task enunciated himself or by other ones			[SK2] Assessment of progress of work		
[K7_U04] able to speak the science and technology language as customary in the transport community and in other related fields	he student can use the advanced methods of management of transport and investment process in the range appropriate for transport infrastructure speciality			[SU3] Assessment of ability to use knowledge gained from the subject [SU4] Assessment of ability to use methods and tools			
Subject contents	the thematic area of undertaken questions is very wide						
Prerequisites and co-requisites							
Assessment methods and criteria	Subject passing criteria	Passing threshold			Percentage of the final grade		
	performance of the paper	60.0%			60.0%		
	presentation	60.0%			40.0%		

Recommended reading	Basic literature	1. The articles and conference papers regarding the subject matter of transport.  2. The materials available on the Internet.  3. The materials delivered by lecturer.
	Supplementary literature	the law concerning transport
	eResources addresses	Adresy na platformie eNauczenie:
Example issues/ example questions/ tasks being completed	the thematic area of undertaken questions is very wide	
Work placement	Not applicable
