

## Subject card

Subject name and code	Interface in technology, PG_00059837						
Field of study	Automation, Robotics and Control Systems						
Date of commencement of studies	October 2020	Academic year of realisation of subject			2022/2023		
Education level	first-cycle studies	Subject group					
Mode of study	Full-time studies	Mode of delivery			at the university		
Year of study	3	Language of instruction			Polish		
Semester of study	6	ECTS credits			3.0		
Learning profile	general academic profile	Assessment form			assessment		
Conducting unit	Department of Metrology and Information Systems -> Faculty of Electrical and Control Engineering						
Name and surname of lecturer (lecturers)	Subject supervisor	dr inż. Anna Golijanek-Jędrzejczyk					
	Teachers	dr inż. Beata Pałczyńska dr inż. Anna Golijanek-Jędrzejczyk					
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	15.0	0.0	20.0	0.0	0.0	35
	E-learning hours included: 0.0						
Interfejsy w technice [2022/23] - Moodle ID: 27831 <a href="https://enauczanie.pg.edu.pl/moodle/course/view.php?id=27831">https://enauczanie.pg.edu.pl/moodle/course/view.php?id=27831</a>							
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours		Self-study		SUM
	Number of study hours	35	7.0		33.0		75
Subject objectives	The aim of the course is to gain knowledge in the field of designing useful HCI/HMI interfaces.						
Learning outcomes	Course outcome	Subject outcome			Method of verification		
	K6_U02	The student can write technical documentation as well estimate the time correctly implementation of individual tasks detailed.			[SU5] Assessment of ability to present the results of task [SU4] Assessment of ability to use methods and tools [SU3] Assessment of ability to use knowledge gained from the subject [SU2] Assessment of ability to analyse information [SU1] Assessment of task fulfilment		
	K6_K02	The student learns the specifics of work in the project group.			[SK3] Assessment of ability to organize work [SK2] Assessment of progress of work [SK5] Assessment of ability to solve problems that arise in practice [SK1] Assessment of group work skills		
K6_W07	Student classifies and designs HCI/HMI interface systems.			[SW3] Assessment of knowledge contained in written work and projects			

Subject contents	<p>Lectures</p> <p>Project management principles and tools. Introduction to the subject: human-machine interface HMI and human-computer HCI. Human properties. Human perception of colors and sounds. The impact of internal and external factors. Information theory. Quality of use of an IT product. Usability of the software and ergonomics of the GUI (graphical user interface) and the principles of preparing an ergonomic interface. Analysis of selected GUIs in terms of usability. GUI testing. Rules for the preparation of good documentation and assistance. Industrial information and visualization systems. Hardware interfaces. Touch panel technology. Selected lectures conducted by specialists from the industry.</p> <p>Lab</p> <p>Designing an ergonomic user interface. Development of good technical documentation of the interface and presentation of its operation.</p>											
Prerequisites and co-requisites												
Assessment methods and criteria	<table border="1"> <thead> <tr> <th data-bbox="456 629 794 658">Subject passing criteria</th> <th data-bbox="799 629 1137 658">Passing threshold</th> <th data-bbox="1142 629 1481 658">Percentage of the final grade</th> </tr> </thead> <tbody> <tr> <td data-bbox="456 665 794 694">Lab</td> <td data-bbox="799 665 1137 694">60.0%</td> <td data-bbox="1142 665 1481 694">50.0%</td> </tr> <tr> <td data-bbox="456 701 794 730">Lecture - written test</td> <td data-bbox="799 701 1137 730">60.0%</td> <td data-bbox="1142 701 1481 730">50.0%</td> </tr> </tbody> </table>			Subject passing criteria	Passing threshold	Percentage of the final grade	Lab	60.0%	50.0%	Lecture - written test	60.0%	50.0%
Subject passing criteria	Passing threshold	Percentage of the final grade										
Lab	60.0%	50.0%										
Lecture - written test	60.0%	50.0%

eResources addresses												
Example issues/ example questions/ tasks being completed	In a group, the student designs an ergonomic user interface for an example automation system and then prepares documentation and a user manual for this system. The whole thing is presented during a short presentation.											
Work placement	Not applicable
