	E-learning hours included: 0.0						

Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours	Self-study	SUM
	Number of study hours	15	1.0	9.0	25

Subject objectives	The aim of this course is an attempt to answer the question of the sociological status of the city when independence and individualism are becoming the ideal of human interactions, and when concepts of city and urbanity are based on temporality and flexibility. Consumerism, overtourism, individualisation of needs and the cultural industry are becoming the main driving force of cities.

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[K7_K02] is ready to respect the diversity of views and cultures and to show sensitivity to the social aspects of the profession	has knowledge and understands the interdisciplinary nature of architecture and urbanism with particular emphasis on socio-cultural aspects.
