

Subject card

Subject name and code	Architectural project II, PG_00055696						
Field of study	Architecture						
Date of commencement of studies	October 2023	Academic year of realisation of subject			2023/2024		
Education level	first-cycle studies	Subject group			Obligatory subject group in the field of study		
Mode of study	Full-time studies	Mode of delivery			at the university		
Year of study	1	Language of instruction			Polish		
Semester of study	2	ECTS credits			4.0		
Learning profile	general academic profile	Assessment form			assessment		
Conducting unit	Department of Residential Architecture -> Faculty of Architecture						
Name and surname of lecturer (lecturers)	Subject supervisor	dr inż. arch. Agnieszka Kurkowska					
	Teachers	mgr inż. arch. Alicja Karaś dr inż. arch. Marta Koperska-Kośmicka dr inż. arch. Agnieszka Kurkowska dr inż. arch. Jakub Kołodziejczak dr inż. arch. Tomasz Szymański mgr inż. arch. Agnieszka Malinowska dr inż. arch. Mateusz Gerigk Jakub Gorzka mgr inż. arch. Karolina Taraszkiewicz					
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	0.0	60.0	0.0	60
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours		Self-study	SUM	
	Number of study hours	60	8.0		32.0	100	
Subject objectives	The aim of the course is to introduce students to the problems of designing small architectural forms. During the semester, topics are covered, the degree of which increases with each subsequent task. The complexity of individual tasks implements the issues raised in the previous semester - architectural design I.						
Learning outcomes	Course outcome	Subject outcome			Method of verification		
	[K6_U03] is able to prepare a graphic, written and oral presentation of your own design concepts in the field of architecture and urban planning, meeting the requirements of a professional record appropriate for architectural and urban design	-MS PowerPoint presentations, -public statements, -architectural designs made in the form of drawings			[SU2] Assessment of ability to analyse information [SU4] Assessment of ability to use methods and tools [SU5] Assessment of ability to present the results of task		
	[K6_U02] is able to design an architectural object or a simple urban complex that meets the aesthetic and technical requirements	- architectural or urban design presented in a drawing form			[SU1] Assessment of task fulfilment		
Subject contents	During the classes, thematic cycles are carried out, during which students design objects on a different scale - from the scale of a small utility object to a building object. The duration of the project depends on the degree of its complexity. The designs are presented in drawing and spatial form as mock-ups.						

Prerequisites and co-requisites	Before starting the course on the subject of Architectural Design II, the student should have knowledge of the basic compositional systems, methods of their creation and the principles of their shaping. Also important is the ability to use architectural drawing as a communication tool. It is also advisable to have the ability to create spatial models of designed objects. To start the course, it is necessary to pass the course Architectural design I.		
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	evaluation of public presentations	5.0%	10.0%
	evaluation of projects	20.0%	45.0%
	evaluation of the design process	20.0%	45.0%
