

Subject card

Subject name and code	, PG_00056137									
Field of study	Mechanical Engineering									
Date of commencement of	ū ū									
studies			Academic year of realisation of subject			2022/2023				
Education level	first-cycle studies		Subject group							
Mode of study	Part-time studies		Mode of delivery			at the university				
Year of study	2		Language of instruction			Polish				
Semester of study	4		ECTS credits			2.0				
Learning profile	general academic profile		Assessment form			assessment				
Conducting unit	Department of Manufacturing and Production Engineering -> Faculty of Mechanical Engineering and Ship Technology							ing and Ship		
Name and surname of lecturer (lecturers)	Subject supervisor		dr hab. inż. Stefan Dzionk							
	Teachers									
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project		Seminar	SUM		
	Number of study hours	8.0	8.0	0.0	0.0		0.0	16		
	E-learning hours included: 0.0									
Learning activity and number of study hours	Learning activity	Participation in classes include plan		Participation in consultation hours		Self-study		SUM		
	Number of study hours	16		0.0		0.0		16		
Subject objectives	Introduction to basic topics of commercial costs and economics									
Learning outcomes	Course outcome Subject outcome Method of verification									
	[K6_W12] possesses basic knowledge necessary to understand the ex-technical conditions of engineering activity, possesses basic knowledge on management, including quality management and running commercial enterprise, within the range of protection of intellectual property and patent law; knows general principles of creating and developing forms of individual entrepreneurship and basic HSE rules applicable to machine industry		The student knows the basic economic rules and their impact on the operation of the enterprise in a market economy. The student knows the basic issues of incomes and costs in the enterprise.			[SW1] Assessment of factual knowledge				
	[K6_U11] is able to analyse the operation of devices and compare the construction solutions applying usage, safety, environmental, economic and legal criteria [K6_K01] is aware of the need for		Student makes simple economic analysis. The student finds statistical data on a specific issues and interprets it accordingly. Student predicts changes in the			[SU1] Assessment of task fulfilment [SK5] Assessment of ability to				
	complementing the knowledge throughout the whole life, is able to select proper methods of teaching and learning, critically assesses the possessed knowledge; is aware of the importance of professional conduct and following the rules of professional ethics; is able to show resourcefulness and innovation in the realisation of professional projects		value of the company's basic assets over time. Student calculates basic enterprise parameters related to incomes, costs, profit, etc.			solve problems that arise in practice				

Data wydruku: 18.04.2024 23:05 Strona 1 z 2

Subject contents	Basic concepts in economics. Basis for the functioning of the market, supply, demand, price. Production and costs in the enterprise, the theory of short- term and long-term production costs, the balance of the company. Money, banking and financial markets, the central bank and commercial banks, financial market products. Exercises: Supply, demand, elasticity, fixed costs, variable costs, minimum output, interest rates and borrowing costs.					
Prerequisites and co-requisites						
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade			
	Market analyse	60.0%	30.0%			
	Midterm colloquium	60.0%	35.0%			
	Colloquium exercises	60.0%	35.0%			
Recommended reading	Basic literature 1. James D. Gwartney: Understanding Economics, Thomson Learning, May 2012.					
	Supplementary literature	y literature 1. Bob Frank: Principles of Economic, McGraw-Hill				
	eResources addresses	Adresy na platformie eNauczanie:				
Example issues/ example questions/ tasks being completed	 Explain the task of economics, Explain what economists understand the concepts: scarcity, good availability, allocation. Characterize the roundabout circulation in the economy. Formulate arguments showing that the competitive price is determined at the point of equilibrium at the intersection of supply and demand. Describe the role (the essence) of money in the economy. Define the role of banks. What is the function of obligatory reserves? Explain the concepts of fixed costs, variable costs, average cost, opportunity cost. 					
Work placement	Not applicable
