

Subject card

Subject name and code	Fundamentals of Ergonomics and Occupational Safety and Health, PG_00046522								
Field of study	Ocean Engineering, Ocean Engineering								
Date of commencement of studies	October 2020		Academic year of realisation of subject			2023/2024			
Education level	first-cycle studies		Subject group						
Mode of study	Part-time studies		Mode of delivery			at the university			
Year of study	4		Language of instruction			Polish			
Semester of study	8		ECTS credits			2.0			
Learning profile	general academic profile		Assessment form			assessment			
Conducting unit	Institute of Ocean Engineering and Ship Technology -> Faculty of Mechanical Engineering and Ship Technology					nd Ship			
Name and surname	Subject supervisor		dr inż. Jacek Nakielski						
of lecturer (lecturers)	Teachers		dr inż. Jacek Nakielski						
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Projec	t	Seminar	SUM	
	Number of study hours	10.0	0.0	0.0	0.0		0.0	10	
	E-learning hours included: 0.0								
Learning activity and number of study hours	Learning activity	ctivity Participation in classes includ plan		Participation in consultation hours		Self-study		SUM	
	Number of study hours	10		4.0				45	
Subject objectives	Man-machine-environment. Characteristics of work. Tiredness. Requirements for working with a computer.Safe operation of machines. Risk assessment								
Learning outcomes	Course outcome		Subject outcome			Method of verification			
	[K6_U04] has self-education skills in order to improve professional qualifications, is ready to work in industrial environment, adheres to HSE rules and regulations					[SU5] Assessment of ability to present the results of task			
	[K6_W07] has a general knowledge on humanities, social and economical sciences. Knows the rules of creating the forms of personal entrepreneurship and economic activity, has knowledge on the protection of intellectual property rights and industrial property rights and copyrights					[SW1] Assessment of factual knowledge			
	[K6_U07] applies knowledge on humanities, social and economical science in solving problems					[SU5] Assessment of ability to present the results of task			
	[K6_K02] can work in a team, assuming various roles, can act in a rational and ethical way					[SK1] Assessment of group work skills			
Subject contents	Ergonomic system: human-machine-environment. Characteristics of work and its physiology, human workload. Spatial and material parameters of the working environment, Parameters characterizing the human figure. Man's workload. Human information, regulation, control and sensory system. Tiredness. Ergonomic requirements for working with a computer. Safety in the operation of machines. Methods of occupational risk assessment at workplaces. Occupational risk assessment for electrical and mechanical factors. Occupational health and safety management system. Employers' obligations to ensure safe working conditions. CE marking.								
Prerequisites and co-requisites									
Assessment methods and criteria	Subject passin	Passing threshold			Percentage of the final grade				
			50.0%			100.0%
