

Subject card

Subject name and code	BSc Diploma Project, PG_00060470						
Field of study	Mechanical and Naval Engineering						
Date of commencement of studies	October 2023	Academic year of realisation of subject		2026/2027			
Education level	first-cycle studies	Subject group		Optional subject group			
Mode of study	Part-time studies	Mode of delivery		at the university			
Year of study	4	Language of instruction		Polish			
Semester of study	7	ECTS credits		16.0			
Learning profile	general academic profile	Assessment form		assessment			
Conducting unit	Institute of Mechanics and Machine Design -> Faculty of Mechanical Engineering and Ship Technology						
Name and surname of lecturer (lecturers)	Subject supervisor		dr hab. inż. Waldemar Karaszewski				
	Teachers						
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	0.0	0.0	0.0	0
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	0		20.0		380.0	400
Subject objectives	Preparation by the student of an engineering diploma project with a topic and scope defined by the thesis supervisor.						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
	[K6_U08] is able to design a technological manufacturing process for typical elements of machines or devices, using analytical and numerical calculating tools		The student prepares a diploma project. Performs design work on the technological process using available literature and tools.		[SU1] Assessment of task fulfilment [SU4] Assessment of ability to use methods and tools		
	[K6_U03] is able to identify, formulate and develop the documentation of a simple design or technological task, including the description of the results of this task in Polish or in a foreign language and to present the results using computer software or other aiding tools		The student prepares an engineering diploma project. He is able to identify and formulate a specification of simple engineering tasks of a design nature using available tools.		[SU1] Assessment of task fulfilment		
	[K6_U07] is able to design a typical construction of a mechanical device, component or a testing station using appropriate methods and tools, adhering to the set usage criteria		The student performs, using appropriate methods and tools, the necessary calculations, research, analyses and comparisons in order to solve an engineering task of a practical nature.		[SU3] Assessment of ability to use knowledge gained from the subject [SU1] Assessment of task fulfilment		
	[K6_U09] is able to plan the manufacturing, assembly and quality control processes of typical constructions and mechanical devices, estimating their costs		The student prepares a diploma project. Performs design work on a device, object, system or process.		[SU4] Assessment of ability to use methods and tools [SU1] Assessment of task fulfilment		
Subject contents	Carrying out the work under the supervision of the Supervisor in accordance with the defined scope and topic. Editorial preparation of the work content for its publication. Consultation of the project with the Supervisor and, if necessary, other experts. Preparation of a multimedia presentation.						
Prerequisites and co-requisites	Registration for the diploma semester.						
Assessment methods and criteria	Subject passing criteria		Passing threshold		Percentage of the final grade		
	Evaluation of the engineering diploma project		56.0%		100.0%		

Recommended reading	Basic literature	Literature consistent with the topic of the work.
	Supplementary literature	Literature consistent with the topic of the work.
	eResources addresses	Adresy na platformie eNauczanie:
Example issues/ example questions/ tasks being completed	Current lists of diploma examination questions appropriate to a given specialization are available on the Faculty's website.	
Work placement	Not applicable	

Document generated electronically. Does not require a seal or signature.
