

Subject card

Subject name and code	Automation of Processes and Means of Transportation, PG_00060674						
Field of study	Transport and Logistics						
Date of commencement of studies	October 2023	Academic year of realisation of subject			2025/2026		
Education level	first-cycle studies	Subject group			Optional subject group Subject group related to scientific research in the field of study		
Mode of study	Full-time studies	Mode of delivery			at the university		
Year of study	3	Language of instruction			Polish		
Semester of study	6	ECTS credits			2.0		
Learning profile	general academic profile	Assessment form			assessment		
Conducting unit	Zakład Mechaniki i Konstrukcji Morskich -> Institute of Ocean Engineering and Ship Technology -> Faculty of Mechanical Engineering and Ship Technology						
Name and surname of lecturer (lecturers)	Subject supervisor	dr inż. Ryszard Pyszko					
	Teachers						
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	15.0	15.0	0.0	0.0	0.0	30
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	30		2.0		18.0	50
Subject objectives	The objectives of the course are to familiarize students with the issues: - improving efficiency in freight and passenger transport processes, - efficient use of means of transportation, - reducing adverse environmental effects associated with transportation, - providing the needed integration of various modes of transport, - Identification of constraints of a technical, economic, organizational nature.						
Learning outcomes	Course outcome	Subject outcome			Method of verification		
	[K6_W04] has well established knowledge in the field of computer science, electronics, automation and control, information technology and computer graphics, useful for understanding the possibilities of applying them in transport	The student is able to develop on his own (using a spreadsheet) to carry out the selection of a carrier for a given transportation task.			[SW1] Assessment of factual knowledge [SW3] Assessment of knowledge contained in written work and projects		
	[K6_U04] is skilled in self-educating in order to develop his professional qualifications, is prepared to work in an industrial environment, applies the principles of occupational health and safety	The student is familiar with the regulations applied in the transport industry regarding the transport environment and health and safety rules			[SU5] Assessment of ability to present the results of task [SU1] Assessment of task fulfilment		
	[K6_U01] can obtain information from literature, databases and other sources; verify and systematize the information obtained, interpret it and draw conclusions, formulate and justify opinions	The student is able to carry out the selection of the means of transport for the task set in the order			[SU2] Assessment of ability to analyse information [SU3] Assessment of ability to use knowledge gained from the subject [SU1] Assessment of task fulfilment		

Subject contents	<p>1.Automation of transport processes and means 2.Logistics chain 3.Warehousing 4.Open and semi-open warehouse 5.Distribution channels 6.Inventory in logistics 7.Distribution channels 8.Warehouse susceptibility 9.Commodity picking 10.RIFD system11.Storage regulations 12.Warehouse automation13.Automation of means of transport 14.Autonomy of means of transport</p>											
Prerequisites and co-requisites												
Assessment methods and criteria	<table border="1"> <thead> <tr> <th data-bbox="453 528 794 560">Subject passing criteria</th> <th data-bbox="794 528 1139 560">Passing threshold</th> <th data-bbox="1139 528 1489 560">Percentage of the final grade</th> </tr> </thead> <tbody> <tr> <td data-bbox="453 564 794 591">Exercises</td> <td data-bbox="794 564 1139 591">60.0%</td> <td data-bbox="1139 564 1489 591">50.0%</td> </tr> <tr> <td data-bbox="453 595 794 622">Lecture</td> <td data-bbox="794 595 1139 622">60.0%</td> <td data-bbox="1139 595 1489 622">50.0%</td> </tr> </tbody> </table>			Subject passing criteria	Passing threshold	Percentage of the final grade	Exercises	60.0%	50.0%	Lecture	60.0%	50.0%
