

## Subject card

Subject name and code	Laboratory Practice, PG_00060835						
Field of study	Chemical Technology						
Date of commencement of studies	October 2023	Academic year of realisation of subject			2023/2024		
Education level	first-cycle studies	Subject group			Obligatory subject group in the field of study		
Mode of study	Full-time studies	Mode of delivery			at the university		
Year of study	1	Language of instruction			Polish		
Semester of study	1	ECTS credits			2.0		
Learning profile	general academic profile	Assessment form			assessment		
Conducting unit	Department of Inorganic Chemistry -> Faculty of Chemistry						
Name and surname of lecturer (lecturers)	Subject supervisor	dr inż. Andrzej Okuniewski					
	Teachers	dr inż. Andrzej Okuniewski dr inż. Joanna Grabowska dr inż. Anna Kuffel dr inż. Monika Gensicka-Kowalewska dr hab. inż. Łukasz Ponikiewski prof. dr hab. inż. Krystyna Dzierzbicka dr inż. Aleksandra Ziółkowska					
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	30.0	0.0	0.0	30
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours		Self-study		SUM
	Number of study hours	30	3.0		17.0		50
Subject objectives	Mastering the basic techniques used in chemical laboratories.						
Learning outcomes	Course outcome	Subject outcome			Method of verification		
	[K6_U02] is able to operate typical laboratory apparatus and conduct analyses related to materials testing	The student is capable of operating typical laboratory equipment and performing routine laboratory tasks, such as chemical synthesis and analysis, as well as physicochemical tests.			[SU5] Assessment of ability to present the results of task [SU4] Assessment of ability to use methods and tools [SU3] Assessment of ability to use knowledge gained from the subject [SU2] Assessment of ability to analyse information [SU1] Assessment of task fulfilment		
	[K6_K03] is aware of the responsibility for his/her own work and is ready to follow the rules of teamwork and take responsibility for the tasks performed jointly	The student is capable of working in a group and organizing tasks, learns to follow safety procedures in the chemical laboratory, and demonstrates awareness of responsibility for the work performed.			[SK5] Assessment of ability to solve problems that arise in practice [SK4] Assessment of communication skills, including language correctness [SK3] Assessment of ability to organize work [SK2] Assessment of progress of work [SK1] Assessment of group work skills		

Subject contents	<p>Chemical laboratory. Installations: water, gas, electricity, ventilation. Personal protection measures, Health and safety regulations and rules. First aid in accidents, hazards (work with flammable, explosive, corrosive, toxic substances, fire fighting).</p> <p>Chemicals: types, labeling, transport, storage, neutralization.</p> <p>Technical gases: types, transport, storage, gas cylinder service, manometers. Flammability, toxicity and explosiveness of gases.</p> <p>Laboratory vessels: glass, quartz, porcelain. Wood, metal and plastic fittings.</p> <p>Laboratory operations: heating, cooling, drying. Work under increased and reduced pressure Equipment: burners, furnaces, distillers, dryers, autoclaves, vacuum lines.</p> <p>Laboratory glassware used in organic synthesis (types of vessels, their names, purpose, washing and drying glassware).</p> <p>Laboratory kits for typical activities performed in the Organic Chemistry laboratory:</p> <ul style="list-style-type: none"> <li>• Heating with reflux condenser</li> <li>• Filtration under reduced pressure</li> <li>• Extraction</li> <li>• Assembling the apparatus and performing the distillation: simple, steam, fractional and vacuum distillation</li> <li>• Crystallization (method of implementation, solvent selection, use of activated carbon)</li> <li>• Cooling baths</li> <li>• Construction, application and operation of a rotary evaporator</li> </ul> <p>Preparation of solutions of known concentration (composition). Laboratory glassware used for the preparation of solutions (types of pipettes, burettes, volumetric flasks). Commensurability of the pipette and volumetric flask. Scales and weighing - preparation of samples and solutions by weight. Titration.</p> <p>Temperature measurement - types of thermometers and their purpose.</p> <p>Construction, operation and application of thermostats. Construction and operation of a contact thermometer, other regulators.</p> <p>Basics of electrochemistry - electrolysis of solutions, potentiometric measurement.</p>														
Prerequisites and co-requisites	Knowledge of chemistry at the high school level.														
Assessment methods and criteria	<table border="1" data-bbox="448 1503 1487 1715"> <thead> <tr> <th data-bbox="448 1503 798 1541">Subject passing criteria</th> <th data-bbox="802 1503 1141 1541">Passing threshold</th> <th data-bbox="1145 1503 1487 1541">Percentage of the final grade</th> </tr> </thead> <tbody> <tr> <td data-bbox="448 1541 798 1597">Tests and results in the Department of Organic Chemistry</td> <td data-bbox="802 1541 1141 1597">60.0%</td> <td data-bbox="1145 1541 1487 1597">33.0%</td> </tr> <tr> <td data-bbox="448 1597 798 1653">Tests and results in the Department of Inorganic Chemistry</td> <td data-bbox="802 1597 1141 1653">60.0%</td> <td data-bbox="1145 1597 1487 1653">34.0%</td> </tr> <tr> <td data-bbox="448 1653 798 1715">Tests and results in the Department of Physical Chemistry</td> <td data-bbox="802 1653 1141 1715">60.0%</td> <td data-bbox="1145 1653 1487 1715">33.0%</td> </tr> </tbody> </table>			Subject passing criteria	Passing threshold	Percentage of the final grade	Tests and results in the Department of Organic Chemistry	60.0%	33.0%	Tests and results in the Department of Inorganic Chemistry	60.0%	34.0%	Tests and results in the Department of Physical Chemistry	60.0%	33.0%
Subject passing criteria	Passing threshold	Percentage of the final grade													
Tests and results in the Department of Organic Chemistry	60.0%	33.0%													
Tests and results in the Department of Inorganic Chemistry	60.0%	34.0%													
Tests and results in the Department of Physical Chemistry	60.0%	33.0%
