

Subject card

Subject name and code	Welding Technology, PG_00056427						
Field of study	Ocean Engineering						
Date of commencement of studies	October 2022	Academic year of realisation of subject			2023/2024		
Education level	first-cycle studies	Subject group					
Mode of study	Full-time studies	Mode of delivery			at the university		
Year of study	2	Language of instruction			Polish		
Semester of study	4	ECTS credits			3.0		
Learning profile	general academic profile	Assessment form			assessment		
Conducting unit	Institute of Manufacturing and Materials Technology -> Faculty of Mechanical Engineering and Ship Technology						
Name and surname of lecturer (lecturers)	Subject supervisor	dr hab. inż. Dariusz Fydrych					
	Teachers	mgr inż. Dariusz Duda dr hab. inż. Dariusz Fydrych					
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	15.0	0.0	30.0	0.0	0.0	45
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours		Self-study	SUM	
	Number of study hours	45	3.0		27.0	75	
Subject objectives	Acquiring knowledge of welding and cutting technologies used in the shipbuilding industry						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
	[K6_U06] in compliance with a formulated specification and with the aid of appropriate tools and methods, is able to complete a simple engineering task within the range of design, construction and operation of ocean technology objects and systems		The student is able to plan and lead projects		[SU4] Assessment of ability to use methods and tools [SU3] Assessment of ability to use knowledge gained from the subject [SU2] Assessment of ability to analyse information		
	[K6_U05] can formulate a simple engineering task and its specification within the range of design, construction and operation of ocean technology objects and systems		The student explains the mechanisms determining the formation of welded joints. The student improves the skills of selecting the appropriate material technologies.		[SU4] Assessment of ability to use methods and tools [SU3] Assessment of ability to use knowledge gained from the subject [SU2] Assessment of ability to analyse information		
	[K6_W05] has an organized knowledge on design, construction and operation of ocean technology objects and systems		The student is able to use information and technological, material and IT tools.		[SW3] Assessment of knowledge contained in written work and projects [SW1] Assessment of factual knowledge		

Subject contents	<p>Lecture:</p> <p>Introduction: basic notions. Welding processes. Characteristics and properties of welded joints. Manual metal arc welding. Submerged arc welding. Oxyacetylene welding. Gas metal arc welding (MIG/MAG). Gas tungsten arc welding (TIG). Plasma arc Welding. Laser beam Welding. Electron beam Welding. Resistance welding, Friction Welding, Explosive Welding, Welding of plastics. Soldering and Brazing. Induction soldering, dip soldering, electro-brazing, gas brazing, torch brazing, Furnace brazing. Braze welding. Thermal cutting methods. Quality in welding. Welding defects.</p> <p>Laboratory: Manual metal arc welding. submerged arc welding Gas metal arc welding (MIG/MAG), gas tungsten arc welding (TIG) Resistance and friction welding of metals Oxyacetylene welding, brazing, thermal cutting, gouging Characteristics and properties of welded joints Evaluation of weldability of steel Inspection of quality of welded joints.</p>											
Prerequisites and co-requisites	Metallography Physics Mathematics											
Assessment methods and criteria	<table border="1" style="width:100%; border-collapse: collapse;"> <thead> <tr> <th style="width:33%;">Subject passing criteria</th> <th style="width:33%;">Passing threshold</th> <th style="width:33%;">Percentage of the final grade</th> </tr> </thead> <tbody> <tr> <td>Test</td> <td>60.0%</td> <td>60.0%</td> </tr> <tr> <td>Laboratory test</td> <td>60.0%</td> <td>40.0%</td> </tr> </tbody> </table>			Subject passing criteria	Passing threshold	Percentage of the final grade	Test	60.0%	60.0%	Laboratory test	60.0%	40.0%
	Subject passing criteria	Passing threshold	Percentage of the final grade									
	Test	60.0%	60.0%									
Laboratory test	60.0%	40.0%										
Test	60.0%	60.0%										
Laboratory test	60.0%	40.0%
