

Subject card

Subject name and code	Calculation Costs in Enterprise, PG_00005099							
Field of study	Mechanical Engineering, Mechanical Engineering							
Date of commencement of studies	October 2020		Academic year of realisation of subject			2023/2024		
Education level	first-cycle studies		Subject group					
Mode of study	Full-time studies		Mode of delivery			at the university		
Year of study	4		Language of instruction			Polish		
Semester of study	7		ECTS credits			2.0		
Learning profile	general academic profile		Assessment form			assessment		
Conducting unit	Department of Manufacturing and Production Engineering -> Faculty of Mechanical Engineering and Ship Technology							
Name and surname	Subject supervisor	dr hab. inż. Stefan Dzionk						
of lecturer (lecturers)	Teachers							
Lesson types and methods	Lesson type	Lecture	Tutorial	Laboratory			Seminar	SUM
of instruction	Number of study hours	15.0	15.0	0.0	0.0		0.0	30
	E-learning hours included: 0.0							
Learning activity and number of study hours	Learning activity	Participation in classes include plan		Participation i consultation h			udy	SUM
	Number of study hours	30	0.0		0.0			30
Subject objectives	Introduction to basic topics of commercial costs and economics							
Learning outcomes	Course out	Subject outcome			Method of verification			
	[K6_W12] possesses basic knowledge necessary to understand the ex-technical conditions of engineering activity, possesses basic knowledge on management, including quality management and running commercial enterprise, within the range of protection of intellectual property and patent law; knows general principles of creating and developing forms of individual entrepreneurship and basic HSE rules applicable to machine industry		The student knows the basic principles of cost accounting in an enterprise. Student predicts changes in the value of the company's basic assets over time.			[SW1] Assessment of factual knowledge		
	[K6_U11] is able to analyse the operation of devices and compare the construction solutions applying usage, safety, environmental, economic and legal criteria [K6_K01] is aware of the need for		The student qualifies the costs occurring in the enterprise and indicates the places where they arise. Student calculates basic enterprise parameters related to incomes, costs, profit, etc. The student is aware of the			[SU3] Assessment of ability to use knowledge gained from the subject [SK5] Assessment of ability to		
	complementing the knowledge		limitations of entrepreneurship and the impact on the environment. The student acquires knowledge in the field of economic factors.			solve problems that arise in practice

Subject contents	Basic concepts in economics. Basis for the functioning of the market, supply, demand, price. Production and costs in the enterprise, the theory of short- term and long-term production costs, the balance of the company. Money, banking and financial markets, the central bank and commercial banks, financial market products. Exercises: Supply, demand, elasticity, fixed costs, variable costs, minimum output, interest rates and borrowing costs.					
Prerequisites and co-requisites						
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade			
	Colloquium exercises	60.0%	35.0%			
	Midterm colloquium	60.0%	35.0%			
	Market analyse	60.0%	30.0%			
Recommended reading	Basic literature	1. James D. Gwartney: Understanding Economics, Thomson Learning , May 2012.				
	Supplementary literature	1. Bob Frank: Principles of Economic, McGraw-Hill				
	eResources addresses	dresy na platformie eNauczanie:				
Example issues/ example questions/ tasks being completed	 Explain the task of economics, Explain what economists understand the concepts: scarcity, good availability, allocation. Characterize the roundabout circulation in the economy. Formulate arguments showing that the competitive price is determined at the point of equilibrium at the intersection of supply and demand. Describe the role (the essence) of money in the economy. Define the role of banks. What is the function of obligatory reserves? Explain the concepts of fixed costs, variable costs, average cost, opportunity cost. 					
Work placement	Not applicable
