

## Subject card

Subject name and code	Supervising safety in the company, PG_00059213								
Field of study	Transport and Logistics								
Date of commencement of studies	February 2023		Academic year of realisation of subject			2023/2024			
Education level	second-cycle studies		Subject group						
Mode of study	Full-time studies		Mode of delivery			at the university			
Year of study	1		Language of instruction			Polish			
Semester of study	2		ECTS credits			2.0			
Learning profile	general academic profile		Assessment form			assessment			
Conducting unit	Institute of Manufacturing and Materials Technology -> Faculty of Mechanical Engineering and Ship Technology								
Name and surname	Subject supervisor	dr inż. Sławomir Szymański							
of lecturer (lecturers)	Teachers		dr inż. Sławomir Szymański						
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Projec	t	Seminar	SUM	
	Number of study hours	30.0	0.0	0.0	0.0		0.0	30	
	E-learning hours included: 0.0								
Learning activity and number of study hours	Learning activity Participation in classes include plan				Self-study SUI		SUM		
	Number of study hours	30	0.0			0.0		30	
Subject objectives	Acquiring knowledge in the field of threats and methods of safety assessment in the workplace. The ability to determine the degree of risk at the workplace The ability to draw up a safety management plan in the workplace								
Learning outcomes	Course outcome		Subject outcome			Method of verification			
	[K7_K03] The student is aware of his social role as a technical university graduate, is aware of the importance of adhering to professional ethics and respecting the diversity of views
