

Subject card

Subject name and code	Revitalisation of urban areas , PG_00049268						
Field of study	Spatial Development						
Date of commencement of studies	October 2023		Academic year of realisation of subject		2026/2027		
Education level	first-cycle studies		Subject group		Obligatory subject group in the field of study Subject group related to scientific research in the field of study		
Mode of study	Full-time studies		Mode of delivery		at the university		
Year of study	4		Language of instruction		Polish		
Semester of study	7		ECTS credits		1.0		
Learning profile	general academic profile		Assessment form		assessment		
Conducting unit	Department of Urban Design and Regional Planning -> Faculty of Architecture -> Faculties of Gdańsk University of Technology						
Name and surname of lecturer (lecturers)	Subject supervisor		dr inż. arch. Magdalena Rembeza				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	15.0	0.0	0.0	0.0	0.0	15
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	15		1.0		9.0	25
Subject objectives	The aim of the course is to introduce students to issues related to the broadly understood revitalization of cities in Poland and other European countries.						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
	[K6_U05] correctly interprets natural phenomena, and when formulating and solving engineering tasks related to spatial management, notices their systemic and non-technical aspects related to the natural environment		student correctly interprets the issues of revitalization in the spatial, social and economic context		[SU1] Assessment of task fulfilment		
	[K6_K02] comprehending technical and non-technical aspects and effects of its activity, initiates various activities for the public interest, including co-organizing social projects, workshops and public debates on issues related to spatial management, within which it can reliably present a problem on a non-professional forum and explain the methods and solutions used		understanding the technical and non-technical aspects and effects of his activities, student is able to reliably present the problem related to the subject of revitalization on a non-professional forum and explain the methods and solutions used		[SK1] Assessment of group work skills		
	[K6_W04] has basic knowledge in the field of pro-ecological design and knows the principles of sustainable development of cities and regions; has knowledge of the natural foundations of spatial management and the impact of natural conditions on the processes of economic development on a local, regional and national scale		student has got basic knowledge in the field of revitalization in terms of pro-ecological design and knows the principles of sustainable development of cities and regions		[SW2] Assessment of knowledge contained in presentation		

Subject contents	Course content – lecture 0. Presentation of the schedule and topics of lectures.1. Introduction to revitalization - explanation of the most important concepts.2. Revitalization of cities in Poland - general approach3. Legal conditions for revitalization in Poland: Act on revitalization.4. Diagnosis of crisis phenomena and delimitation of the area of revitalization.5. Social conditions of revitalization: Social participation.6. Charette workshops. The example of Gdynia WestWorkshop - participation in student groups7. Economic and social instruments in revitalization.8. URBAN Initiative - European cases9. Models of revitalization10. Scenarios of revitalization11. Design practice in revitalization.12. Revitalization of city centers and public spaces.13. Design practices in revitalization.14. Revitalization of post-industrial and military areas - examples		
Prerequisites and co-requisites			
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	implementation of the task in the form of a presentation	70.0%	100.0%
