

Subject card

Subject name and code	Geometry and Technical Drawing, PG_00041993						
Field of study	Power Engineering, Power Engineering						
Date of commencement of studies	October 2023		Academic year of realisation of subject			2023/2024	
Education level	first-cycle studies		Subject group			Obligatory subject group in the field of study Subject group related to scientific research in the field of study	
Mode of study	Full-time studies		Mode of delivery			at the university	
Year of study	1		Language of instruction			English	
Semester of study	1		ECTS credits			3.0	
Learning profile	general academic profile		Assessment form			assessment	
Conducting unit	Department of Machine Design and Vehicles -> Faculty of Mechanical Engineering and Ship Technology						
Name and surname of lecturer (lecturers)	Subject supervisor		dr hab. inż. Jacek Łubiński				
	Teachers		mgr inż. Bartosz Bastian dr hab. inż. Jacek Łubiński				
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	15.0	30.0	0.0	0.0	0.0	45
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	45		7.0		23.0	75
Subject objectives	Ability of sketching assembly drawings and drawings of details						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[K6_K01] is aware of the need for training and self-improvement in the profession of energy and the possibility of further education; can think and act in a creative and entrepreneurial manner; can define priorities for the implementation of an individual or group task	Conscious recognition of the role of the energy sector to technology and economy. Understanding of the necessity in engineering to read the technical documentation expressed in the form of technical drawings and possessing the skills sufficient for the creation of simple technical drawings, as required in day-to-day maintenance of energy production/conversion systems.	[SK4] Assessment of communication skills, including language correctness [SK5] Assessment of ability to solve problems that arise in practice [SK2] Assessment of progress of work
	[K6_U04] is able to design a simple device structure and prepare the accompanying technical documentation, conduct a basic technical and economic analysis of energy systems, including technologies using renewable and pro-ecological energy sources as well as conventional and nuclear energy, design energy installations for them and their basic elements (including electric lighting)); select, operate and control the most commonly used electrical devices and drive systems.	Skills in engineering graphics as required to use in machine design tasks.	[SU1] Assessment of task fulfilment [SU2] Assessment of ability to analyse information [SU3] Assessment of ability to use knowledge gained from the subject [SU4] Assessment of ability to use methods and tools [SU5] Assessment of ability to present the results of task

Subject contents	Basic geometry elements and relationship. Axonometric and orthographic projection. Point & line in space. Solids cross sections. Principles of dimensioning. Surface finish, tolerances and fits. Presenting of welded, screwed, keys elements, rolling bearing, gears in engineering drawing. Assembly drawing and working drawing of element of machinery		
Prerequisites and co-requisites	command of the English language, minimum level B2		
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	final test	65.0%	50.0%
	projects sheets	65.0%	50.0%
Recommended reading	Basic literature	Zapis konstrukcji, część I, Geometria Wykreślna, A. Rigall, J. Sadaj, Rysunek Techniczny Maszynowy, T. Dobrzański, Engineering Graphics handbook (preferably an European release)	
	Supplementary literature	Zbiór zadań z rysunku technicznego maszynowego, Z. Lewandowski The Fabric of Reality, David Deutsch A Brief History of Time, Stephen Hawking The Axemaker's Gift, James Burke, Robert Ornstein Catch 22, Joseph Heller The Trial, Franz Kafka Animal Farm, George Orwell	
	eResources addresses	Adresy na platformie eNauczanie: Geometry and Technical Drawing, PG_00041993 2023/24 - Moodle ID: 34341 https://enauczenie.pg.edu.pl/moodle/course/view.php?id=34341	
Example issues/ example questions/ tasks being completed	Sketch the assembly draing of an energetic device based on detail drawings.		
Work placement	Not applicable
