

关。GDAŃSK UNIVERSITY 多 OF TECHNOLOGY

Subject card

Subject name and code	English Language II, PG_00047560							
Field of study	Biomedical Engineering							
Date of commencement of studies	October 2022		Academic year of realisation of subject		2023/2024			
Education level	first-cycle studies		Subject group			Obligatory subject group in the field of study		
Mode of study	Full-time studies		Mode of delivery			at the	at the university	
Year of study	2		Language of instruction			Englis	English	
Semester of study	3		ECTS crec	ECTS credits				
Learning profile	general academic profile		Assessme	Assessment form		asses	sment	
Conducting unit	Language Centre ->	Vice-Rector for	r Education					
Name and surname	Subject supervisor		mgr Joanna Pawlik					
of lecturer (lecturers)	Teachers		mgr Małgorzata Strach-Drabina					
			mgr Joanna Pawlik					
			mgr Urszula Kamińska					
			mgr Benjamin Sempek					
			mgr Dorota Horowska					
			mgr Katarzyna Szałaj					
			mgr Joanna Pawlak-Mikuć					
		mgr Aleksandra Lis						
Lesson types and methods	Lesson type	Lecture	Tutorial	Laboratory	Projec	t	Seminar	SUM
of instruction	Number of study hours	0.0	30.0	0.0	0.0		0.0	30
	E-learning hours included: 0.0							
Learning activity and number of study hours	Learning activity Participation in classes includ plan				Self-study		SUM	
	Number of study 30 hours			2.0		18.0		50
Subject objectives	Students reach B2 or C1 level of general English with the elements of engineering vocabulary and topic areas. The course additionally covers basic aspects of the specialist language relevant to the field of study. It is concluded with the ACERT exam.							

Learning outcomes	Course outcome	Subject outcome	Method of verification	
	[K6_K82] is equipped to participate in lectures, seminars and laboratory classes conducted in foreign language	Students will be able to: communicate in an academic and professional environment; understand specialist literature and technical instructions; understand speeches and lectures.	[SK2] Assessment of progress of work [SK4] Assessment of communication skills, including language correctness	
	[K6_K81] is able to cooperate in international team	Students will be able to: communicate in English at university and in other environments and collaborate to produce an international group project.	[SK1] Assessment of group work skills [SK4] Assessment of communication skills, including language correctness	
	[K6_U81] is able to communicate appropriately in foreign language at B2 level of the Common European Framework of Reference for Languages (CEFR) in everyday life, in academic and professional environments	Students will be able to communicate in English at university, in the workplace and in everyday English.	[SU3] Assessment of ability to use knowledge gained from the subject	
	[K6_U82] is able to obtain and process information related to field of study and academic environment in foreign language at B2 level of the Common European Framework of Reference for Languages (CEFR)	Students will be able to: gain information from various sources without infringing copyright; communicate in English regarding the field of biomedical engineering and academic environment.	[SU3] Assessment of ability to use knowledge gained from the subject	
	[K6_W81] has knowledge of grammatical structures and lexical resources needed to communicate in foreign language in terms of general and specialist language related to field of study	Students will be able to: use specialist vocabulary in speaking and writing; understand, analyse and translate technical texts written in English; use formal English; write abstracts, summaries, instructions and manuals, reports, covering letters, CV profiles as well as describe graphs, charts and processes; prepare and give a presentation.	[SW2] Assessment of knowledge contained in presentation	

Subject contents Vocabulary. Developing general knowledge of the language and introducing specialist terms and expressions used in the field of biomedical engineering. Practising complex textcal structures. Introducing basic terminology of mathematics and general engineering. Grammar: Developing B2IC1 level grammar structures essential for written and verbal communication. Writing: Practing skills in writing various formal and informal texts such as reports, emails, CVs, notes, instructions, descriptions of processes. Reading: Developing various reading techniques indispensable for dealing with general and professional texts. Listening: Developing various reading techniques indispensable for dealing with general and professional texts. Listening: Developing istening comprehension skills necessary in workplace and everyday life situations such as telephone conversations, interviews, customer service communication, lectures and presentations. Speaking: Practising general and specialist language communication skills such as presenting arguments, solving problem, perforbation, incruises, and processions. Practising the correct pronunciation and intonation of expressions. Practising the correct pronunciation and intonation of expressions. Prerequisites and correquisites Before joining a language group, students are expected to be at level B1 or higher. Assessment methods and criteria Subject passing criteria Passing threshold Percentage of	Subject contents	Vocabulary				
field of biomedical engineering. Practising complex lexical structures. Introducing basic terminology of mathematics and general engineering. Grammar: Developing B2/C1 level grammar structures essential for written and verbal communication. Writing: Practising skills in writing various formal and informal texts such as reports, emails, CVs, notes, instructions, descriptions of processes. Reading: Developing various reading techniques indispensable for dealing with general and professional texts. Listening: Developing tatening comprehension skills necessary in workplace and everyday life situations such as telephone conversations, interviews, customer service communication, lectures and presentations. Speaking: Practising general and specialist language communication skills such as presenting arguments, solving problems, participating in case studies, holding formal and informal conversations and job interviews. Practising general and specialist language communication skills such as presenting arguments, solving problems, participating in case studies, holding formal and informal conversations and job interviews. Practising the correct pronunciation and intonation of expressions.
