

Subject card

Subject name and code	Corporate Networks, PG_00047899								
Field of study	Informatics								
Date of commencement of	October 2023	Academic year of			2025/2026				
studies			realisation of subject			2020/2020			
Education level	first-cycle studies		Subject group			Option	Optional subject group		
						Subject group related to scientific research in the field of study			
Mode of study	Full-time studies		Mode of delivery			at the university			
Year of study	3		Language of instruction			Polish			
Semester of study	6		ECTS credits			3.0			
Learning profile	general academic profile		Assessment form			assessment			
Conducting unit	Department of Compo	Department of Computer Communications -> Faculty of Electronics, Telecommunications and Informatics							
Name and surname	Subject supervisor		dr inż. Wojciech Gumiński						
of lecturer (lecturers)	Teachers		dr inż. Wojciech Gumiński						
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Projec	t	Seminar	SUM	
	Number of study hours	15.0	0.0	0.0	15.0		0.0	30	
	E-learning hours included: 0.0								
Learning activity and number of study hours	Learning activity	Participation in classes include plan		Participation in consultation hours		Self-study		SUM	
	Number of study hours	30		5.0		40.0		75	
Subject objectives	The objective of the course is to familiarize students with the principles of design, building and maintaining corporate networks.								
Learning outcomes	Course out	Subj	Subject outcome			Method of verification			
	[K6_W03] Knows and understands, to an advanced extent, the construction and operating principles of components and systems related to the field of study, including theories, methods and complex relationships between them and selected specific issues - appropriate for the curriculum [K6_W04] Knows and understands, to an advanced extent, the principles, methods and techniques of programming and the principles of computer software development or programming devices or controllers using microprocessors or programmable elements or systems specific to the field of study, and organisation of systems using computers or such devices		Student lists the methods of computer network remote access. Student lists threats in computer networks.			[SW1] Assessment of factual knowledge [SW2] Assessment of knowledge contained in presentation			
			Student distinguishes between LAN cabling standards. Student makes plan of names and addresses of devices. Student uses tools to monitoring the computer networks.			[SW1] Assessment of factual knowledge [SW2] Assessment of knowledge contained in presentation			
Subject contents Prerequisites	Types of corporate networks. Opportunities for small, medium and big enterprises. Design of corporate networks. Hierarchical model of logical architecture of corporate networks. Virtual private networks. Corporate IP Telephony. Electronic data interchange. Tele and video conferencing. Remote training. Security issues. Customer relationships management. Groupware and Workflow. Enterprise applications integration. Evolution of cocepts of corporate networks.								
and co-requisites
