

表 GDAŃSK UNIVERSITY OF TECHNOLOGY

Subject card

Subject name and code	ESSENTIALS OF ECONOMIC FORECASTING, PG_00058504								
Field of study	Economic Analytics								
Date of commencement of studies	October 2023		Academic year of realisation of subject			2024/	2024/2025		
Education level	first-cycle studies	irst-cycle studies		Subject group			Obligatory subject group in the field of study		
						Subject group related to scientific research in the field of study			
Mode of study	Full-time studies		Mode of delivery			at the	at the university		
Year of study	2		Language of instruction			Polish	Polish		
Semester of study	3		ECTS credits			5.0	5.0		
Learning profile	general academic profile		Assessment form			exam			
Conducting unit	Katedra Statystyki i Ekonometrii -> Faculty of Management and Economics								
Name and surname	Subject supervisor		dr Aneta Sobiechowska-Ziegert						
of lecturer (lecturers)	Teachers								
Lesson types and methods of instruction	Lesson type Number of study	Lecture 30.0	Tutorial 0.0	Laboratory 30.0	Projec	t	Seminar 0.0	SUM 60	
	hours	50.0	0.0	50.0	0.0		0.0	00	
	E-learning hours included: 0.0								
Learning activity and number of study hours	Learning activity	Participation i classes incluc plan				Self-study		SUM	
	Number of study hours	60		10.0		55.0 125		125	
Subject objectives	Selects forecasting methods appropriate to the studied phenomenon, obtaining economically and socially valuable results, which is confirmed by the conducted assessment								
Learning outcomes	Course outcome Subject outcome Method of verifica					erification			
	[K6_U05] designs innovative solutions to complex problems obtaining economic and socially valuable results		selects the appropriate forecasting method based on the course of the phenomenon over time, obtaining economically and socially valuable results			[SU5] Assessment of ability to present the results of task [SU4] Assessment of ability to use methods and tools [SU2] Assessment of ability to analyse information			
	[K6_W05] integrates data from multiple sources to analyze complex economic problems		forecasts economic phenomena at the micro and macroeconomic level, integrating data from many sources			[SW3] Assessment of knowledge contained in written work and projects [SW1] Assessment of factual knowledge			
Subject contents	Basic concepts and issues related to forecasting. Types of forecasts, methods and variables. Measurement of the quality of forecasts. Naive and adaptive methods of forecasting - introduction. Simple and weighted moving averages. Exponential smoothing - Brown, Holt and Winters model. Heuristic methods and analog forecasting. Scenarios and warning forecasts. Mega trends - forecasts for the world and Poland Forecasting selected elements of the macro-environment of the enterprise. Forecasting selected elements of the micro-environment of the enterprise. Forecasting variables in the enterprise.								
Prerequisites and co-requisites	microeconomics basics of statistics macroeconomics								
Assessment methods and criteria	Subject passing criteria		Passing threshold			Percentage of the final grade			
			-			40.0%			
	colloquium		60.0%		40.0%				
	assignments	0.0%	0.0%			20.0%

Example issues/ example questions/ tasks being completed	 Based on data from stat.gov.pl / macroeconomic indicators for the selected economic variable. Make a graph of the analysed variable and determine the nature of its changes in the analysed period. Predict this variable for the next period using the appropriate adaptive method. evaluate the suitability of the selected method on the basis of the forecast quality measures in the adopted test period. Interpret the obtained results. 					
Work placement	Not applicable
