

。 GDAŃSK UNIVERSITY OF TECHNOLOGY

Subject card

Subject name and code	ENTERPRISE INFORMATION SYSTEMS, PG_00058563							
Field of study	Economic Analytics							
Date of commencement of studies	October 2023		Academic year of realisation of subject			2024/2025		
Education level	first-cycle studies		Subject group			Obligatory subject group in the field of study		
						Subject group related to scientific research in the field of study		
Mode of study	Part-time studies		Mode of delivery			at the university		
Year of study	2		Language of instruction			English		
Semester of study	4		ECTS credits			5.0		
Learning profile	general academic profile		Assessment form			exam		
Conducting unit	Faculty of Manageme	ent and Econon	nics					
Name and surname	Subject supervisor dr Tomasz Janowski							
of lecturer (lecturers)	Teachers		dr inż. Bartosz Woliński					
			dr Tomasz Janowski					
Lesson types and methods	Lesson type	Lecture	Tutorial	Laboratory	Projec	t	Seminar	SUM
of instruction	Number of study hours	16.0	0.0	16.0	0.0		0.0	32
	E-learning hours inclu	ided: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study SU		SUM
	Number of study hours	32		10.0		83.0		125
Subject objectives	Explains how digitization transforms modern enterprises, pointing to the links between information systems and business processes							
Learning outcomes	Course outcome		Subject outcome			Method of verification		
	[K6_W02] Demonstrates advanced knowledge of methods and techniques related to the field of study in economic analytics to explain complex problems.		chooses information methods and techniques to solve problems in a company		[SW2] Assessment of knowledge contained in presentation [SW1] Assessment of factual knowledge			
	[K6_U07] Applies advanced information technologies to enhance data analysis and decision-making processes.		support decision-making processes and build the company's value			[SU4] Assessment of ability to use methods and tools [SU3] Assessment of ability to use knowledge gained from the subject		
Subject contents	Lectures: Introduction - digital enterprise Typology - types of enterprise information systems Organization - impact of organization on information systems Society - digital enterprise in the society Economy - digital enterprise in the economy Labs: Fundamentals of the SAP system, Global Bike company in SAP Sales and distribution process in SAP Materials management process in SAP Production planning and implementation process in SAP Accounting and financial process in SAP Control process in SAP Human resources management process in SAP							

Prerequisites and co-requisites	Fundamentals of computer science, management, marketing, production management and microeconomics						
Assessment methods	Subject passing criteria	Passing threshold	Percentage of the final grade				
and criteria	Activity	0.0%	10.0%				
	Exam	60.0%	45.0%				
	Colloquium	60.0%	25.0%				
	Project	0.0%	20.0%
