

Subject card

Subject name and code	ENTERPRISE INFORMATION SYSTEMS, PG_00058563						
Field of study	Economic Analytics						
Date of commencement of studies	October 2023		Academic year of realisation of subject		2024/2025		
Education level	first-cycle studies		Subject group		Obligatory subject group in the field of study Subject group related to scientific research in the field of study		
Mode of study	Part-time studies (on-line)		Mode of delivery		blended-learning		
Year of study	2		Language of instruction		English		
Semester of study	4		ECTS credits		5.0		
Learning profile	general academic profile		Assessment form		exam		
Conducting unit	Faculty of Management and Economics						
Name and surname of lecturer (lecturers)	Subject supervisor		dr Tomasz Janowski				
	Teachers		dr Tomasz Janowski				
			dr inż. Bartosz Woliński				
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	16.0	0.0	16.0	0.0	0.0	32
	E-learning hours included: 24.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	32		10.0		83.0	125
Subject objectives	Explains how digitization transforms modern enterprises, pointing to the links between information systems and business processes						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
	[K6_W02] Demonstrates advanced knowledge of methods and techniques related to the field of study in economic analytics to explain complex problems.		chooses information methods and techniques to solve problems in a company		[SW2] Assessment of knowledge contained in presentation [SW1] Assessment of factual knowledge		
	[K6_U07] Applies advanced information technologies to enhance data analysis and decision-making processes.		applies information systems to support decision-making processes and build the company's value		[SU4] Assessment of ability to use methods and tools [SU3] Assessment of ability to use knowledge gained from the subject		
Subject contents	Lectures: Introduction - digital enterprise Typology - types of enterprise information systems Organization - impact of organization on information systems Society - digital enterprise in the society Economy - digital enterprise in the economy Labs: Fundamentals of the SAP system,Global Bike company in SAP Sales and distribution process in SAP Materials management process in SAP Production planning and implementation process in SAP Accounting and financial process in SAP Control process in SAP Human resources management process in SAP Colloquium						

Prerequisites and co-requisites	Fundamentals of computer science, management, marketing, production management and microeconomics		
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	Exam	60.0%	45.0%
	Colloquium	60.0%	25.0%
	Project	0.0%	20.0%
	Activity	0.0%	10.0%
