

Subject card

Subject name and code	Studio Technology, PG_00048140						
Field of study	Electronics and Telecommunications						
Date of commencement of studies	October 2023	Academic year of realisation of subject			2026/2027		
Education level	first-cycle studies	Subject group			Optional subject group Subject group related to scientific research in the field of study		
Mode of study	Full-time studies	Mode of delivery			at the university		
Year of study	4	Language of instruction			Polish		
Semester of study	7	ECTS credits			3.0		
Learning profile	general academic profile	Assessment form			assessment		
Conducting unit	Department of Multimedia Systems -> Faculty of Electronics, Telecommunications and Informatics						
Name and surname of lecturer (lecturers)	Subject supervisor		prof. dr hab. inż. Bożena Kostek				
	Teachers		prof. dr hab. inż. Bożena Kostek				
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	15.0	0.0	30.0	0.0	0.0	45
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	45		3.0		27.0	75
Subject objectives	The aim of the course is to familiarize students with the basic issues of studio technology and to show them the basics of audio engineer work.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[K6_W35] Knows the concepts of the technique of signal transmission, operation of telecommunications networks and multimedia services and the rules for providing them	The student knows and understands the basic problems of audio recordings in multimedia products	[SW1] Assessment of factual knowledge
	[K6_W03] Knows and understands, to an advanced extent, the construction and operating principles of components and systems related to the field of study, including theories, methods and complex relationships between them and selected specific issues - appropriate for the curriculum	The student has basic knowledge in the field of studio technology. He understands the construction of the modern audio and video studio.	[SW1] Assessment of factual knowledge
	[K6_W05] Knows and understands, to an advanced extent, methods of supporting processes and functions, specific to the field of study	The student knows and understands how to choose acoustic plans, microphones and stereo techniques for verbal and instrumental recordings as well as lighting techniques and composition of the visual image of the film set.	[SW1] Assessment of factual knowledge
	[K6_U03] can design, according to required specifications, and make a simple device, facility, system or carry out a process, specific to the field of study, using suitable methods, techniques, tools and materials, following engineering standards and norms, applying technologies specific to the field of study and experience gained in the professional engineering environment	The student can prepare the authoring of audio-video recordings on optical media.	[SU1] Assessment of task fulfilment [SU3] Assessment of ability to use knowledge gained from the subject [SU4] Assessment of ability to use methods and tools
Subject contents	<p>Lecture</p> <p>1. Introduction. Fundamentals 2. Construction of an audio-video studio 3. Overview of microphone design types 4. Overview of loudspeaker and headphone design types 5. Speech and voice recording requirements 6. Musical instruments requirements 7. Sound production for multimedia 8. Shots in video production (shot selection, influence of shot selection on shot climate) 9. Movie location set up 10. Video lighting set up 11. Basic video compositing techniques 12. Preparation of sounds and videos for DVD/Blu-Ray authoring 13. Principles of intellectual property law 14. Lecture summary 15. Test</p> <p>Laboratory</p> <ol style="list-style-type: none"> Preparation for a radio drama Preparation for a radio drama – editing TV Commercial recording Recording of a single musical instrument Preparation and recording of TV news CD/DVD authoring Students' productions reviewing 		
Prerequisites and co-requisites			
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	Midterm colloquium	50.0%	50.0%
	Practical exercise	50.0%	50.0%
