Subject card

| Subject name and code | Discrete Mathematics, PG_00058928 |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Field of study | Informatics |  |  |  |  |  |  |
| Date of commencement of studies | October 2023 |  | Academic year of realisation of subject |  |  | 2024/2025 |  |
| Education level | first-cycle studies |  | Subject group |  |  | Obligatory subject group in the field of study <br> Subject group related to scientific research in the field of study |  |
| Mode of study | Part-time studies |  | Mode of delivery |  |  | at the university |  |
| Year of study | 2 |  | Language of instruction |  |  | Polish |  |
| Semester of study | 3 |  | ECTS credits |  |  | 4.0 |  |
| Learning profile | general academic profile |  | Assessment form |  |  | assessment |  |
| Conducting unit | Department of Algorithms and Systems Modelling -> Faculty of Electronics, Telecommunications and Informatics |  |  |  |  |  |  |
| Name and surname of lecturer (lecturers) | Subject supervisor |  | dr Paweł Obszarski |  |  |  |  |
|  | Teachers |  | dr Paweł Obszarski |  |  |  |  |
| Lesson types and methods of instruction | Lesson type | Lecture | Tutorial | Laboratory | Projec | Seminar | SUM |
|  | Number of study hours | 15.0 | 15.0 | 0.0 | 0.0 | 0.0 | 30 |
|  | E-learning hours included: 0.0 |  |  |  |  |  |  |
| Learning activity and number of study hours | Learning activity Participation in didactic <br> classes included in study <br> plan |  |  | Participation in consultation hours |  | Self-study | SUM |
|  | Number of study <br> hours 30 |  |  | 4.0 |  | 66.0 | 100 |
| Subject objectives | Getting familiar with the mathematical notation and techniques useful in discrete optimization. |  |  |  |  |  |  |
| Learning outcomes | Course outcome |  | Subject outcome |  |  | Method of verification |  |
|  | [K6_U01] can apply mathematical knowledge to formulate and solve complex and non-typical problems related to the field of study and perform tasks, in an innovative way, in not entirely predictable conditions, by:n- appropriate selection of sources and information obtained from them, assessment, critical analysis and synthesis of this information, n selection and application of appropriate methods and toolsn |  | Knows how to use in practice knowledge from graph theory, set theory and other |  |  | [SU4] Assessment of ability to use methods and tools |  |
|  | [K6_W01] Knows and understands, to an advanced extent, mathematics necessary to formulate and solve simple issues related to the field of study |  | Learns about numerous algorithmic aspects of set theory, combinatorics and graph theory |  |  | [SW1] Assessment of factual knowledge |  |
|  | [K6_W41] Knows and understands, to an advanced extent, the operation and evaluation criteria of data processing, storage and transfer methods, including computational algorithms, artificial intelligence and data mining |  | Knows elements of combinatorisc and graph theory crucial in big data analysis. |  |  | [SW1] Assessment of factual knowledge |  |
|  | [K6_K02] is ready to critically assēss possessed knowledge and acknowledge the importance of knowledge in solving cognitive and practical problems |  | Learns about numerous mathematical models and their practical applications. |  |  | [SK2] Assessment of progress of work <br> [SK5] Assessment of ability to solve problems that arise in practice |  |

| Subject contents | Algebra of sets <br> Logic: tautologies, predicates <br> Mathematical induction <br> Binary relations: equivalence r <br> Binary relations: partial order, <br> Binary relations: transitive clos <br> Counting: functions, configura <br> Graph Theory: notation, basic <br> Graph Theory: Eulerian graph <br> Graph Theory: Hamiltonian gra <br> Graph Theory: properties of tr <br> Graph Theory: planarity <br> Graph coloring | n, equiivalence classes <br> diagrams <br> equivalence closure <br> partitions, <br> nese Postman Problem <br> Traveling Salesman Problem |  |
| :---: | :---: | :---: | :---: |
| Prerequisites and co-requisites |  |  |  |
| Assessment methods | Subject passing criteria | Passing threshold | Percentage of the final grade |
| and criteria | Written exam | 51.0\% | 100.0\% |
| Recommended reading | Basic literature | [1] K. A. Ross, C. R. B. Wright, Matematyka dyskretna, PWN, Warszawa 1996. [2] R. L. Graham, D. E. Knuth, O. Patashnik, Matematyka konkretna, PWN, Warszawa 1996. [3] W. Lipski, W. Marek, Analiza kombinatoryczna, PWN, Warszawa 1986. [4] H. Rasiowa, Wstęp do matematyki współczesnej, PWN, Warszawa 1984.
